

### The Artist's Tone is the Edison Tone

There is no such thing as an "Edison Tone." There is, in the New Edison, a Bonci Tone, a Spalding Tone, a Rappold Tone, an Anna Case tone—each separate and distinct; each faithful to the distinctive character of the artist. But the New Edison has no tone of its own. There is no foreign sound, no "talking machine" tone. Mr. Edison has eliminated all these. The music of the New Edison is nothing but the pure, unaltered, life-like tone of the original artist. Come in and hear your favorite record today on the New Edison Amberola. We will be glad to play it for you without obligation.

## ALLIES PLAN TO KEEP KAISER'S ARMY BUSY IN THE WEST

Amsterdam, Oct. 13.—A new drive by the allies in the Artois and the Champagne regions of the western front, and perhaps elsewhere, is momentarily expected, as it is understood here that the allies plan to keep the kaiser too busy on the western line to push far into the Balkans before reinforcements from the allies can reach Serbia.

### ENGLISH SUBMARINE GETS ANOTHER GERMAN

London, Oct. 13.—Giving the crew time to take to the boats, a British submarine dynamited the German steamer Walter Leonard in the Baltic Tuesday, according to a Copenhagen dispatch today. British ships in the Baltic have recently sunk four or five German steamships. It is believed all crews were saved.

## WILL OPERATE THE OSCAR CREEK MINE ON LARGE SCALE

In the year 1876, when the Centennial was celebrated back in Philadelphia, A. H. Carson, then younger by years, but certainly not fuller of energy and industry than now, located a placer claim in Oscar creek near where he is now picking Tokays and Malagas by the car load. Later locations were made along the same creek by Messrs. Burkhalter, Jewell and Dr. Moore, and the nuggets that have been taken from the property since have added to the fame of southern Oregon placer fields. The locations named have now been brought together and are now held by the Oscar Creek Consolidated Mines company, and this year will be operated upon a most extensive scale. Messrs. B. R. Miller of Portland and Geo. E. Hogg of New York, both mining engineers of long experience, have taken over the property and are now here preparing it for maximum operation as soon as the winter rains set in. Two pipe lines are being installed to carry the waters of Oscar, Board Shanty and Wild Cat creeks to the giants, and entire new placer mining equipment is being installed under the direction of Messrs. Miller and Hogg. The properties included in the consolidation comprise 238 acres, upon which there is an estimate of a million yards of gold bearing gravel. The first work to be prosecuted this winter will be upon the claim originally located by Mr. Carson, the last test of which showed pay dirt going \$2.70 per yard. The Oscar creek ground has yielded many of the show specimens of the district and some of the nuggets that it has produced are now included in the exhibit at the Panama-Pacific exposition.

Mr. Hogg, the New York man who becomes interested with Mr. Miller in the mine, has just returned from a visit to the exposition, and he speaks most highly of the southern Oregon display. He says that it must impress mining men with the variety and extent of the mining resources of this district.

### BIDS WANTED

The undersigned will receive bids up to October 18, 1915, on the machinery and equipment of the cannery. Bids will be received for the whole or any part. Bids will also be received for the building as it is, same to be torn down and removed. Mr. E. W. Kline will be on premises to show property. 569 FIRST NATIONAL BANK.

**HUNTERS BAG MUCH GAME IN HUNTS ON COLUMBUS DAY**  
 Many quail, squirrels and other game birds and animals fell before the fire of the allied hunters on Columbus day, the birds and animals undoubtedly regretting that one Christopher Columbus ever found America. The heads, clerks and general factotums of the offices of the county clerk and the sheriff went out to the Applegate and brought home a fine bag of mountain quail from the hills. Assessor Eclis Pollock reports one of the most varied bags of the season, having brought in his legal quota of silver gray squirrels as well as quail, blue grouse and native pheasant. Other hunters were successful with squirrels and valley quail, while the Waltons took many pounds of steelheads from the Rogue. One party, consisting of County Attorney Miller, Attorney Johnston and Joe Wharton, went below Hell Gate for a day with the fish and game, and at last reports had not returned.

**TELLS HOW TO BE A SUCCESSFUL UNDERTAKER**  
 San Francisco, Oct. 13.—Those jolly fellows, the funeral directors, in convention here, have been told by Fred E. Pierce, of Los Angeles, just how they should act and dress if they would be successful in their profession.  
 "They should be, he says: Serious, but not gloomy. Dignified, but not morose. Gentle, but not fawning. Self-possessed, but not self-conscious. Quietly masterful, but not "bossy." Sympathetic, but not lachrymose. Neat, but not gaudy. Avoid vulgar display of jewelry. Incidentally, Pierce paid his compliments to the "cloth," when he commented: "I have observed that some preachers would spoil anything and that they are adept at spoiling funerals."
