Conklins Leave for Dakota—

Mr. and Mrs. Arthur Conklin and two children left on No. 13 this morning. Mr. Conklin for Mitchell, South Dakota, and Mrs. Conklin and the children for Los Angeles, where they will visit for a week and then join Mr. Conklin in South Dakota, where he has a position with the Investors Syndicate of Minneapolis. Mr. Conklin is one of the pioneers of Grants Pass, having built many of its permanent business blocks, and owns much business, residence and farm property. For a number of years he was in the real estate business, later publisher of the Pacific Outlook, but for the past few years devoted his time to his property interests. Mrs. Conklin is one of the most prominent ladies of the city, foremost in church and public work, and will be greatly missed from the community.

MORE MILLIONS WANTED FOR THE NATIONAL DEFENSE

Washington, Oct. 14.—The army's part in the national defense program was discussed today by President Wilson and Chairman Hay of the house military affairs committee. Secretary Garrison's army re-organization plan was before them. Financial considerations were uppermost, as both were understood to regard Garrison's previous plans as too costly.

What the limit should be was tentatively considered, in view of increases figured at from \$50,000,000 to \$60,000,000 above last year's appropriations.

The proposed addition of 20,000 men to the present force of 87,000 regulars would be at an estimated cost of \$15,000,000, while more and heavier guns for coast and field artillery would add another ten or fifteen millions. The increase in ammunition, supplies and reserves would cost \$5,000,000.

Officials hope to keep the army budget under \$175,000,000, an increase of from \$50,000,000 to \$60,000,000 over last year's figures.

Proposed short term enlistments to increase the number of military trained citizens, who would form a reserve, was also discussed in today's session.

The amount to be asked for navy appropriations this year, it is understood, will be around \$240,000,000. This amount includes estimates for dreadnaughts and submarines that would materially increase the strength and efficiency of the navy.

BALLAST CREW NOW WORKING ON NEW RAILROAD

Ballasting operations upon the new railroad commenced today, and will be continued as rapidly as possible until the entire line has been put in first class shape. Pending the work of the ballasting crew, trains No. 2 and 3, the noon trains, will be discontinued, the train being employed in the ballasting. The steam shovel commenced scooping up the decomposed granite at Jerome Prairie hump this afternoon. The two trains will be again placed on the run as soon as the road is ballasted. The morning and evening trains will be continued as usual. More rails for the extension of the line beyond Waters creek have arrived, and the cars will run to Hays hill in a few days more.

RECOGNITION OF CARRANZA MAY COME DURING DAY

(By United Press Leased Wire.) Washington, Oct. 14.—American recognition of Carranza as Mexican provisional president impended today. The proclamation conferring this distinction upon the grim "first chief" has been drafted and Secretary of State Lansing plans to issue it during the day. He will send copies to all American diplomats abroad and to the foreign embassies here.

The proclamation was understood to include an embargo against arms crossing the American line to Carranza's enemies, coupled with announcement that America will regard as rebels all anti-Carranzista factions.

Minister Calderon of Bolivia reported to Lansing today that his government had assented to recognition of Carranza. Internal dissension was believed to be delaying Guatemala's action in this matter.

Delay in receiving the approval of Guatemala and Bolivia was the only hitch in the recognition plans.

Carranza's reported capture of Guaymas, Villa's only water stronghold, is a step in making the embargo effective, for with communications by sea shut off, the rebel chieftain has only the border source. When an embargo has been clamped tightly by the United States Villa will be shut off entirely.

William Loeb, Jr., agent of the Guggenheim interests, came here to see Lansing regarding Villa's reported threat to seize Guggenheim mines in Sonora and Chihuahua.

ADMINISTRATION COMBATS CLAIMS OF PACIFIC MAIL

(By United Press Leased Wire.) Washington, Oct. 14.—The administration is preparing to "show up" the Pacific Mail Steamship company's motive for disbanding under the plea that the LaFollette Seamen's act forced them from business.

It was learned today that the commerce and labor departments had collected a great deal of evidence to controvert the company's claims that if it complied with this law it would lose money.

Justus Wardell, surveyor of the port of San Francisco, here today, conferred with Secretary of Commerce Redfield. Wardell's figures showed that the Pacific Mail liner Mongolia cleared \$128,000 net every trip, while the estimated earnings of the Mongolia and Manchuria were \$11 per mile net.

OREGON AGGIES MEET WASH. STATE SATURDAY

Corvallis, Oct. 14.—The Oregon Agricultural college team is working mightily hard preparing for the game with Washington State college here next Saturday. The game should be a hummer, as Washington State overwhelmingly defeated the University of Oregon last Saturday, while the Aggies were administering an equally sound drubbing to Whitman college.
