**More Fords in Town**  
Another carload of Ford automobiles arrived in the city today for the Moss agency, and the people of Grants Pass will aid in paying for the trip of the Oscar II through their purchase. Indications are that this will be a lively season with the auto dealers here.

**Rogue River Weather**  
While floods and blizzards are reported from all directions, the Rogue valley is enjoying typical southern Oregon weather conditions. The sun today has been shining from an almost cloudless sky, with a bracing frost in the air during the night. The snow is not melting fast enough to cause a rise in the river.

## PORT ORFORD HAS VISION OF RAILROAD

A report has recently been sent out from Port Orford stating that a party of surveyors is now in the field near there making a survey for a railroad, the report including the following:

"The latest report comes from the mountain section of the county, and the long-looked-for survey is now under way, and it's the road the people of Port Orford want, as it will mean more for Curry county than three roads up and down the coast.

"A party of twenty-two men have headquarters at the boundary line on Tim creek, half of the party are working towards Port Orford, down the middle fork of the Sixes river, while the other crews are working towards Grants Pass, north of Eden ridge, up China creek.

"Port Orford has waited a long time for this road, and it is the one road that will give to Grants Pass and the other Rogue River valley towns a deep-water harbor."

A railroad from Grants Pass to the coast at or near Port Orford has been one of the dreams for years past, and will no doubt come true some day. Three years ago a survey was made down the Rogue from Grants Pass, crossing the divide at Mule creek, and continuing down the Coquille to the coast. This survey was run through to connect with the Pacific & Eastern at Eagle Point. It has been predicted on many occasions that the Hill line would be extended through from eastern Oregon, to connect up with the Pacific & Eastern and continue on to the coast via Grants Pass, and if the report of the surveying crew in the field is correct, other railroad developments may be on the way.

Mrs. C. P. Slade and baby son, who have been visiting Mrs. Slade's parents, County Judge and Mrs. Gillette, during the past three weeks, returned to their home in Silverton this morning.

### MURPHY

Mr. and Mrs. Bochay, who have been visiting their daughter, Mrs. Carey, for some time, have returned to their home in Wisconsin.

A. H. Carsons entertained company at Redlands from Portland Sunday.

It certainly was an unusual sight to see sleds in Murphy Sunday, and must have looked like home to those who were used to that style of traveling during the winter back in the cold countries. Only the howling wind was missing.

The Carey family, who have been living in the Gunnell house, have moved into Grants Pass.

Mrs. John McArthur has been visiting her sister, Mrs. T. E. Gilmore.

Rob McGuffin is confined to his bed with a very bad attack of la grippe.

In spite of the stormy weather the stork was able to visit the Carl home Monday morning and leave a fine baby boy.

### ENGLAND TO ADD 50,000 MORE MEN TO THE NAVY

(By United Press Leased Wire)  
London, Jan. 19.—England intends to add 50,000 new men to her navy. This is taken here today as indicative of a preliminary step toward enforcing an actual blockade against Germany.

While it was recently stated that 14 superdreadnaughts, as well as scores of smaller vessels, had been completed since the war began, the fact of this extensive proposed increase in personnel indicates that an even more surprising number of new ships have been created. Addition of the new draft will place 260,000 men at the disposal of the admiralty.

### TRAILERS WILL FOLLOW WILSON ON STUMPING TOUR
