MONEY In Your Pocket

Our Moderate Prices Never Deplete a Man's Purse

The man who buys his outfitting here will always have money left in his pocket.

While our clothing is the limit of good clothes making and good value, our prices are never lofty or beyond the reach of the man with an ordinary income.

We price it to sell at the lowest margin possible, allowing ourselves only a living profit.

Baptist Men Entertain— The "merely male" members of the Baptist church held a "stag party" Wednesday night in the basement of the church annex, at which a number of guests assembled and assisted in the general enlivening process.

The male quartet and orchestra rendered excellent selections, after which Prof. Dan Hull gave an interesting address on "Higher Ideals and Their Attainment." He dwelt briefly on the need of teaching the younger generation the value of practical brotherhood and the need of cooperation among their elders in developing such standards.

The Slam Imperial Minstrels, five in number, brought tears to the eyes of the audience through the suggestive pathos of their dialogues and the rendition of heart-touching melodies. Prof. H. Grafonola Marahallino, as interlocutor, was the dark yet shining light of the quintette from Slam, his "watermill" song being especially well received.

Then the chefs and waiters became active, and soon the luscious wieners, sauerkraut, rye bread, doughnuts and coffee were placed on the "free-for-all" table. As the inner man became warmed, the head promptly responded, and story-telling was in order until Prof. Hull broke up the merry crowd by relating a "whale" of a narrative.

Indian and Japanese Evening— The January Music club concert will take place Wednesday evening, the 26th, at 8 o'clock, at the Commercial club assembly room. Part of the program will be Japanese in character, and the latter part Indian-American Indian. This will be the first time that the newly purchased Victrola is used at one of these concerts. Beautiful records have been loaned by Mrs. Hough, Mrs. R. W. Clarke, and Mrs. Woodward. Several of the songs are by Cadman—probably the foremost composer of Indian music. They will be given in costume. The program includes the Misses Wible, Pinkerton, Mangum, Mrs. Dyer, Mrs. Vater, Mrs. Dunne, Mr. Wharton, Mr. Case, Mr. Lynn Sabin and a quartette composed of Mrs. Ireland, Mrs. Woodward, Mrs. Harry K. Clark, and Miss Clara Wojke. Members of the club will be admitted by membership cards; the public by paying ten cents.

ELSIE JANIS
In the Bosworth-Paramount 5-Act Feature
"Nearly a Lady"
STAR ★
Tonight and Tomorrow

Recommended by the Woman's Home Companion, which says, in part: "Lively, romantic comedy-drama. Has many elaborate scenes and varied setting."
But not only does ELSIE JANIS achieve dramatic success, but she supplements it with an eerie display of personal accomplishments of which no other girl on earth would be capable, and which is simply dazzling!
In her beautiful "Lariat Dance" before the Montant cowboys she outdances them at their own classic Art Accord and his famous riders, every one of them born and brought up on ranch and range, have to admit the superiority of this girl's remarkable dancing.
In her imitations of the English lord and his expert table fork, needless to say, she is incomparable. In this scene she is droll and hilarious and everything comprehended between the two.
More unusual are her swimming feats, which nearly ended fatally, in the \$250,000 marble pool of a noted American Millionaire. ELSIE JANIS, though you may not have known it, is not only artistic but athletic, too.
When you come, then, after all this to her irresistible antics when dressed in the faultless English dress clothes of a stage-door Johnnie she is seen ogling the show girl at the Casino you get some idea of the myriad phases of this wonder girl's genius.

SPRAY PLANT TO BE BUILT ON NEW R. R.

Another new enterprise is being developed upon the line of the California & Oregon Coast line railroad, the Eismann brothers, Chris and H. D., under the firm name of the Eismann Products Co., having now in course of building a structure just opposite the Edgerton & Adams saw-mill, on the extension of South Sixth street. About February 1st the firm will commence the making of spray for sale to the orchardists here and for shipment, the plant being located so that the product can be loaded directly upon the cars from the warehouse. The spray-making machinery is now being placed. Later, when the fruit season opens, a plant for evaporating all varieties of fruit, and for cider and vinegar making, will be added.
