Robbers Get Away With Clothing—The police have obtained no clue to the party or parties who broke into Fred Roper's tailoring establishment some time Tuesday night and helped themselves to six suits of tailor-made clothes and an extra pair of pants. The thieves entered the building from the rear by removing a pane of glass, after which they crawled through the opening thus made. The suits taken were of assorted sizes, large and small, and included one full dress suit. The goods in the shop were all looked over by the thieves, they taking time, evidently, to make selections. Early in the evening of the robbery two strange men entered a local cigar store and asked regarding the location of the tailor shop. They did not appear at the shop during business hours, and have not since been seen, and it is suspected that if they could be found they might know something of the affair.

ENGLAND TO CURB IMPORTATIONS

London, Jan. 27.—The government has decided upon a partial prohibition of importation of many articles not absolutely necessary to the nation in order to relieve the shipping situation, President Runciman of the Board of Trade announced in the house of commons today. He said the whole British mercantile marine will be placed under government control.

Neutral nations, particularly the United States, from whence comes most of the prohibited products, will be the hardest hit.

Imports of wood pulp, glass and tobacco will be permitted to enter in limited quantities; possibly later the government will prohibit imports of furniture, woods and other raw materials, and exports of rags and other items from which paper is made, as well as several other products.

WOMAN INDICTED FOR KIDNAPING OWN CHILD

Portland, Jan. 27.—The grand jury today returned an indictment against Mrs. Mollie Bowers for kidnaping her own five-year-old daughter, while the little girl was a ward of the juvenile court.

"Every time I get a chance I'm going to take my child away from any person that has her," declared the mother defiantly when informed that she was under indictment. "I'll do it if I have to kill some one. If they are going to take Marion away, I can't live."

Mrs. Bowers is in the county jail. When she went to the detention home last week to visit her child she took the little girl with her and fled to Washington. Her offense is punishable by a penitentiary sentence.

A Schoolboy's Story of Jonah.

A school board boy, competing for one of the Peek prizes, evolved this confusion of widely different events. He had to write a short biography of Jonah, and he produced the following: "He was the father of Lot and had two wives. One was called Ishmale and the other Hagher. He kept one at home and turned the other into the desert, when she became a pillow of salt in the daytime and a pillow of fire at night."—From Wheatley's "Literary Blunders."
