# To TREE BUYERS

## "Alien Labor."

When buying trees, did you ever stop to consider whether the trees you were getting were grown with "alien labor" or Americans? When labor usually accompanies low priced trees. Have you been encouraging the employment of foreign labor or have you stopped to consider the question from this angle.

In a great many instances, Orengo trees, grown by white labor, have to compete with cheaper trees grown by alien labor. This is a fact you probably did not know, but next time you are buying trees, would it not be quite proper to ascertain some facts on this point. If you are a good American, believing in American ideals, no doubt you will give preference to the nursery which employs American labor.

In this connection it may interest you to know that a great many of the men connected with our company have been engaged in the nursery profession for the past twenty to twenty-five years, and practically all the time with our company.

When you procure trees that have been reared under the experienced care and knowledge of such men you are much more sure of getting the very best and just what you order, than if you purchase from a less well conducted or experience operated concern.

When you buy your trees from the Oregon Nursery Company, Orengo, Oregon, you have the assurance that your trees have been produced by American labor of a high order, and that every safe-guard to insure their healthiness, reliability and satisfaction to you have been employed.

Always plant Oregon Nursery Company's RELIABLE TREES.

## RELIABILITY SUPERIORITY SERVICE
