**RICH GOLD QUARTZ FOUND ON BIRDSEYE**

The old saying that gold is where you find it is proven true in southern Oregon about every day. J. R. McReynolds came in from Birdseye creek this morning, and has been exhibiting some of the richest samples of gold-bearing quartz ever taken from the ground. The find was made only half a mile up the creek and near the traveled highway, in one of the most accessible places in the country. It was discovered by Messrs. McReynolds and Swacker about four weeks ago, the trace having been followed up by the panning method till a stringer was found. The rich vein is less than two inches wide, and its extent has not yet been determined, though a tunnel is now being driven to cut it at some depth. The samples brought in show a coating of the gold, with the metal showing all through the quartz, and not a great quantity of the ore would be needed to make the strike a bonanza for its locators.

**OBITUARY**

**Edwin C. Smith**  
Edwin C. Smith, who passed away at the family residence on C street on Monday, was born in Philadelphia in July, 1834, coming west with the 1849 gold rush, making the trip by the way of the Isthmus of Panama, and later coming to Oregon. In 1863, at old Williamsburg, he was married to Minerva Victoria Fiddler, who survives him. Mr. Smith mined on the American river and also in Jacksonville district, but in later life was engaged as a contractor and builder. He is survived by eight children, Robert G. and Lincoln, of Grants Pass; Anna C., of San Francisco; Sam C., Hayward, Cal.; Mrs. Mary Martin, Oakland, Cal.; Mrs. Myra A. Dorden, Los Angeles; W. E. Smith and Mrs. R. A. Fenton, of Portland. Mrs. Fenton had been with her father for the past two weeks. W. E. Smith arrived Friday, and Sam C. is expected here tonight.

The funeral will be held at the Presbyterian church at 1:30 o'clock Wednesday, with interment in the I. O. O. F. cemetery.

**William Freed**  
William Freed, a former resident of Grants Pass, died at his home in Philomath, Oregon, Sunday, after an illness of only a few days, though he had been in gradually failing health for a year or more. The funeral services were held at the Freed home, in Philomath, this afternoon, at two o'clock, Rev. D. H. Leech, pastor of the First Methodist church of Corvallis, preaching the sermon. Interment was in the Mount Union cemetery at Philomath.

Mr. Freed was one of the earlier residents of Grants Pass, and left some years ago to reside with his daughter, Mrs. Dennis Stovall, at Philomath. He still held extensive property interests in this county, included in his holdings being the Observer building on G street. He is survived by his wife and by the daughter, Mrs. Stovall.

**GENERAL MOTORS DENIES BEING TAKEN OVER BY CHEVROLET**

A report has gone out to the effect that the stockholders of the Chevrolet Motor company recently authorized an increase of the capital stock from \$20,000,000 to \$80,000,000, and empowered the directors to exchange Chevrolet shares for General Motors shares on a basis of five of Chevrolet for one of General Motors. This report has, however, just been denied to the representative of the Automobile Trade Journal. 688

**What is an idea?**  
"What is an idea?" It is a natural pitfall for modern generations. Even Bulwer Lytton allowed one of his Roman characters to say, "It stands fixed for the ninth day of August," although he must have known that "idea" is a plural without a singular. Why the Romans called the 15th of March, May, July, October and the 13th of every other month the idea they do not seem to have known for certain themselves. Some thought it meant the halfway day of the month, from an Etruscan word meaning "to divide," but modern philology, digging into Sanskrit, has suggested that it means the bright time of the month, full moon.—London Notes and Queries
