TAX PAYING TIME.

Every session of the state legislature changes the system for the payment of taxes, so that the taxpayer has to study the law regularly previous to the time when it becomes his duty to add his mite to the upkeep of the commonwealth. The taxes for the year 1915 will become delinquent if not paid by April 5th, though if half the sum charged against the taxpayer is paid by that time the balance can stand till October 5th without penalty or interest. The taxpayer who fails to make payment by April 5th is mulcted by constantly increasing penalties for the time that payment is delayed thereafter. The following illustration is given to show just how this wonderful piece of legislation works:

"Assuming the tax on a certain parcel of property is \$100, the first half (\$50) may be paid on or before April 5, and the second half (\$50) on or before October 5, without interest or penalty on either. But if the first half is paid on any day from April 6 to May 5, both days inclusive, there should be added an interest charge of 1 per cent (50 cents); from May 6 to June 5, inclusive, 2 per cent (\$1); from June 6 to July 5, inclusive, 3 per cent (\$1.50); from July 6 to August 5, inclusive, 4 per cent (\$2); from August 6 to September 5, inclusive, 5 per cent (\$2.50); from September 6 to October 5, inclusive, 6 per cent (\$3). If the entire tax of \$100 is paid on any day from October 6 to November 5, inclusive, the interest charges should be 7 per cent on the first half (\$3.50), and 1 per cent on the second half (50 cents). If the entire amount is paid on November 5, the interest charges should be 7 per cent on the first half (\$3.50), and 1 per cent on the second half (50 cents), plus a penalty of 5 per cent (\$5.00). Interest continues on all delinquent taxes at the rate of 1 per cent for each month or fraction thereof until the payment of the tax or the issuance of a certificate of delinquency."

HELPING ASHLAND CELEBRATE.

A canvass among the business men of the city has indicated that the very large majority of them favor holding no celebration of the Fourth of July this year in view of the big three-day celebration to be staged in Ashland. The trustees of the Commercial club took action along that line, as did the organization of merchants known as the Beavers, and the members of the Moose band decided against a celebration which it had under contemplation. The people of Ashland are arranging for three days of jollification when the springs project which is now nearing completion will be formally dedicated. Through the Commercial club, Ashland invited Grants Pass to join in the festivities with them, and the invitation has been accepted in a spirit of hearty good will. Grants Pass will hold her celebration later.

A train of a dozen new flat cars and four more box cars, built especially for the C. & O. C. railroad, is expected to arrive in the city during the next few days. The cars were built at the Twohy Brothers company shops at Portland, and will be the latest word in car construction.

With excellent weather for building operations, matters have made great progress at the sugar factory during the past week, and the next six days will be marked by even greater activity. Numerous teams and men will be put at work grading for the railroad sidings that are to extend among the beet sheds, silos, etc., this work not coming under the contract for the buildings being erected by the Dyer Construction company. The Dyer company has been pouring concrete for the foundation of the main factory building, and will have it ready for the frame work within the week. This building is to be four stories in height.

Only about two more weeks' time is left in which voters can register before the primary election. Fifty per cent of the otherwise qualified voters of the county have not yet attended to their duty, though during the past week 252 added their names to the register. The total registration of the county is now 1937, of which number 1,250 are republicans, 495 democrats, and the balance scattering among other parties. Only 12 are registered as progressives, which indicates that in this district, as in about all other districts, the republican party has been brought beneath a common standard again.

At Your Service

**TUNGSTON FIND
HAS BEEN VERIFIED**

Messrs. J. F. Reddy and A. H. Gunnell Friday visited the find of tungsten ore three miles above Gold Hill, bringing samples of the ore home with them. These samples were subjected to tests to determine the character of the ore, and the gentlemen state that there is no doubting the fact that the discovery is one of greatest value. The value lies not alone in the extent of the strike, but in the fact that a new field is opened up for the prospector, for there is no doubting the fact that there may be many deposits of the valuable metal throughout the Rogue valley, prospectors not being acquainted with it and therefore not having recognized it heretofore. E. W. Liljegan, who assayed some of the ore in the first place at Medford, makes the following statement regarding the mineral:
"The discovery of tungsten near Gold Hill by Messrs. G. L. Hall and Henry Ray is bona fide. The tungsten is mostly in the form of scheelite, of a yellowish-white color, in a quartz gangue; also minute particles of wolframite are found in places.
"Vein No. 1 is opened at five different places for a distance of 300 to 400 feet, showing quartz from six inches to three feet wide, carrying tungsten; said openings are from ten to twenty feet long by three to twenty feet deep. The deepest hole shows the greatest width of ore. The 'strike' of the vein is north by 65 degrees west, with a dip of 60 degrees

NEW TODAY

CLASSIFIED AD RATES.—25 words, two issues, 25c; six issues, 50c; one month, \$1.50, when paid in advance. When not paid in advance, 5c per line per issue.

FOR SALE—Two-acre lot, with new eight-room house, on North Seventh street. Inquire at Moore Bakery. 715

INVESTIGATE a real bargain for your money. 145 feet facing Sixth street by 150 feet deep, sewer connected. Seeded to sugar beets. Including street pavement and taxes all paid. Total price \$1,200. Will consider half down, balance in six years at 6 per cent. Chas. Morrison, 622 L. 711

WANTED—A woman to work in boarding house. Phone 612-F-5.

DR. H. WARREN NICE, Osteopathic Physicist. Chronic and nervous diseases specialty. Rooms 1 and 2, Lundburg building, opposite post office; phone 149-R. Residence: Colonial hotel; phone 167-J. 736

ARSENATE OF LEAD PASTE—We are able to offer new stock Dow arsenate of lead paste at very attractive prices (strictly 30 days net cash), providing we are advised of your prospective requirements before April 15. Investigate this. Eisman Products Co., South Grants Pass. 715

Use Good Paint

A coat of paint—good paint—saves ten times its cost by protecting against weather and decay.

Paint your house, porch and lawn fence with Acme Quality House Paints. They will stand between the wood and the weather and protect and beautify your property better than any other paint.

ACME QUALITY

—our trade mark—on any paint or finish means that it's the best that can possibly be made for the purpose.

We have paints and finishes for all surfaces—houses, barns, roofs, floors, carriages. In fact, if it's a surface to be painted, enameled, stained, varnished or finished in any way, we have an Acme Quality Kind to fit the purpose.

We will be glad to show you colors whether you buy or not.

Rogue River Hdw.

The Big Red Front

to the north, and has well-defined CHINESE WOMAN LEAVES SALEM HUSBAND

Vein No. 2 is 500 feet south and parallel with No. 1. No. 1 is opened by shallow shafts and drifts, showing scheelite in quartz. It certainly looks favorable for the profitable development of tungsten ore.

"I would suggest that prospectors throughout this region be on their guard and keep a sharp lookout for the nature of any mineral substance that looks out of the ordinary, even though it is only rock, and to examine especially heavy fragments in panning.

"The strike of these tungsten veins would throw the belt over to the Sardinia country through the north side of a low pass between Rogue river and Sardinia creek.

"Placer miners, when cleaning up, should look out for heavy fragments of any kind of rock, no matter what color, and have it determined by competent assayers as to what it may be. It might be more valuable in content of other mineral than for gold."

Salem, April 1.—Application will be made today to Governor Withycombe for requisition papers for Mrs. Lai Yie Sun, who left Salem Thursday for San Francisco with \$700 worth of jewelry belonging to her husband and herself and \$90 of her own money, taking her two sons, Lai Gooyee Sun and Lai Gun Sun, aged four and three years. She was arrested at Oakland last night on a charge of kidnaping. Her husband, who swore to the complaint, said he feared she might fall into the clutches of slave dealers.

San Francisco, April 1.—New victories have been won by the Chinese revolutionists, according to a cablegram received today by the Chinese Republic association here. The message said rebels had taken complete possession of Kwong, a Cantonese state, and had slain the imperial governor.

California & Oregon Coast Railroad Co.

The attention of shippers is called to the inauguration of a tri-weekly less-than-carload freight service between Grants Pass and Waters Creek, and a change in method of receiving this class of freight.

By special arrangement, effective March 20, with the Southern Pacific Ry., and for the convenience of shippers, less-than-carloads west-bound shipments will be received at the Southern Pacific freight station, and less-than-carload east-bound shipments will be delivered from the S. P. freight station. Shipments will leave Grants Pass over the C. & O. C. R. R. on Tuesdays, Thursdays and Saturdays of each week, and must be delivered at the S. P. freight station by 4 o'clock on the day previous.
