POLICE FAIL TO SOLVE SEATTLE MURDER CASE

Seattle, April 8.—Aroused by the atrocious nature of the double murder of Mrs. Corinne Wheeler and her sister, Miss Kate Swift, Governor Lister today conferred in Seattle with Prosecuting Attorney Lundin, with a view to offering a state reward for the arrest and conviction of the murderer. "The brutality of the crime," the governor said, "makes it imperative that the guilty one be apprehended. If anything the state can do by way of offering a reward, it is my purpose that it shall be done." After 60 hours of investigation, the police have made no progress toward solution of the mystery. Since the aged sisters were found with their heads crushed in, lying in the rooms of their home, practically no evidence has been gained to sustain any of the theories advanced by city detectives.

THREE MORE BRITISH HAVE BEEN SUNK

London, April 8.—Three more British merchant ships have fallen victims to the undersea warfare today, according to messages received by shippers here. The India liner Chantala, 5,000 tons, and the British steamer Brauntton, 5,000 tons, were the largest vessels to be destroyed. The schooner Clyde was also blown up. All the crews were saved.

Cable messages indicated that the Chantala was sunk by a submarine. The others probably struck mines.

ANARCHISTS NOT TO BE PROSECUTED

Chicago, April 8.—Unless further evidence develops there will be no prosecution of anarchists involved in plots to assassinate all European ruling monarchs, States Attorney Hoyne said today. He admitted he had nothing but the statement of a man under surveillance in connection with the "poison soup" banquet here. Old papers, 5c per bundle, at the Courier office.

You Win

EVERY purchase you make at this store is to your advantage. SOME people call it luck to have a place like ours at which to trade. Others think they are lucky because they save money here.

BUT there's the secret of it all—we started doing business with the customers' interests at heart, and we have continued it.

ONE thing we are sure of—it's no game of chance to keep people pleased. On the contrary, it necessitates sticking everlastingly at it, and that's our policy.

MURPHY

Mrs. Geisler and daughter, Ruth, have returned to their home after a visit at the Hayes Bros. home. Our mail carrier's horse undertook to deliver the mail without a driver, with disastrous results to the rig recently. Several attended Pomona Grange at Hugo, Saturday, April 8th. The first sugar beets in the Murphy district were planted on the W. G. White ranch. The County Court has finally begun work on the road, and from appearances intends doing a first class job which certainly will be appreciated by every one. Dr. Wilcoxon has opened an office in Grants Pass and will conduct an interstate mercantile service for collections. Miss Josephine Osborne has been obliged to give up school work for the remainder of the term on account of ill health. This will not interfere with her graduation as she has the required credits. The young folks are busy playing tennis these fine evenings and the new courts are a very popular place. Murphy Grange meetings are very interesting, with a good lecture hour each meeting. Mrs. Barnes is improving slowly.
