How to Fix Tears in Bronze Kid Shoes When the Children Stub Them.

Often when bronze kid shoes are almost new a small piece of the kid will get torn off or turn up and still remain hanging to the shoe. Straighten out the wrinkles, moisten the glue side of a postage stamp or envelope flap, apply quickly to both raw sides of the kid, press into place and hold firmly for a few minutes. The glue of the stamp or envelope flap is so evenly spread that there is no surplus amount to run on to the outside of the kid, making it sticky. This can also be used to mend most any kind of soft kid shoes.

How to Treat a Bad Headache That Comes From Nerves.

In cases of violent headaches it frequently acts as a great relief to bathe the forehead with a sponge wrung out of very hot water. Repeat this as often as the sponge cools. When the head feels rested dash on cold water, wipe dry and lie down for awhile, keeping the eyes closed. Next sit up and turn the head around from side to side slowly until tired. This will have a wonderfully beneficial effect on the circulation and will ward off headache if persisted in.

Household Strife.

"You're pretty easy to see through," said the chair leg to the window. "I make all these chairs stand around."

"That may be," replied the scorned window, "but I think I win by a shade."—Penn State Froth.

CARE OF RUGS.

How to Keep Your Floor Coverings So They Will Last.

It is inadvisable to attempt to clean valuable rugs yourself for obvious reasons. But during spring months the best way to clean rugs at home is to turn them right side down and tap them gently with a light flexible stick or piece of rubber on the wrong side and then sweep them with a dampened broom.

Do not under any circumstances use the ubiquitous vacuum cleaner on a rare rug, since it loosens the nap when drawing out the dust. Rugs should never be packed away for summer where they cannot have monthly inspection at least. The washing of rare rugs is a simple matter for the expert, but nearly impossible for the housekeeper. Never fold a handsome rug when putting it away. Roll it in sheets of newspaper and camphor between, and then wrap it in an enveloping sheet of nonwool covering.

A WORD TO THE WISE.

How to Pass For Being Intelligent Even if You Aren't.

The most intelligent people and the most beautiful are those who see things and get all possible pleasure out of them. An exhibition of indifference to things about you is not an evidence of intelligence. Intelligent people are those whose eyes are open, and that is the way to become intelligent. Such people, also, are the most interesting, sometimes so much so that, even though they lack physical beauty, that is forgotten in admiration for their intellect.

The victim of indifference victimizes all about her. Her friends may look upon her and admire her beauty, but if she is decidedly uninteresting even a little of her society is generally an overdose.

JUST DIP 'EM.

How to Keep Your Garden Labels From Rotting and Fading.

Gardeners frequently have trouble with plant labels rotting. The labels when used in the garden are subject to wet and heat during the season, causing the portion that is in the ground to rot; the label falls over and is lost, and the gardener loses the name of the plants. A good way to preserve wooden garden labels is to soak them in a solution of sulphate of iron. Dry the labels and then soak them in a strong solution of lime-water. This results in the formation of insoluble sulphate of lime in the wood and preserves the labels from rotting.
