WILL THE ROGUE GO DRY?

Down at the mouth of the Rogue where that stream pours its flood into the briny deep, the people are becoming much perturbed for fear that the Rogue is going dry.

Old residents of this section will remember the times in early days when small trading schooners coming into Rogue river could navigate to Bagnell's ferry, four miles up Rogue river, with permanent channels and good water in the lower river.

HUGHES NAME MAY GO ON OREGON BALLOT

Salem, April 17.—A writ of mandamus requiring Secretary of State Olcott to show why the name of Charles E. Hughes should not be certified to go on the ballot as a candidate for the republican nomination for president, was issued today by the supreme court.

Olcott was given one day in which to show cause. The suit was filed by Wallace McCammant, of Portland, who recites that on April 14 he filed an authenticated petition signed by 1354 registered republican electors of the state of Oregon, praying that the name of Hughes should go on the ballot.

Booby taken by the robbers totaled only \$44. Harry Walker, driver of a jitney bus, was the first man captured. The "pirates" forced Walker to drive his machine. They overhauled Mr. and Mrs. J. J. Rouse, driving their own car.

COUNTY AGENT'S NOTES

Because of the close similarity of appearance of seed of Johnson grass and Sudan grass, farmers living in sections where Johnson grass is a troublesome weed have been reluctant to risk planting Sudan grass for fear of introducing Johnson grass onto their farms.

SELLING DANDELION ROOTS AT FOUR TO SIX CENTS PER POUND OFFERED A PRETTY FAIR PREMIUM ON REMOVING THE DANDELION PEST FROM THE LAWNS, FIELDS AND PASTURES.

Since 100,000 pounds or more are imported annually into the United States, it seems that many a young boy or girl ought to make fairly good wages by collecting and preparing dandelion roots for the drug stores.

THE PAST WEEK HAS BEEN VERY FAVORABLE FOR THE DEVELOPMENT OF FUNGUS ON FRUITS.

As the time is near at hand for the application of arsenate of lead, I would emphasize the necessity for the use of lime and sulphur in about the proportion of one to 35, with the arsenate of lead spray.

I BELIEVE THAT GOOD RESULTS CAN BE OBTAINED FROM THE ORGANIZATION OF A COW TESTING ASSOCIATION IN JOSEPHINE COUNTY.

I am satisfied at the present time that we have many cows in our dairies here that are not paying for their keep. Several dairymen have already expressed their desire to go into a pact in the very near future to make a survey of the situation and determine the possibilities of perfecting such an organization.

GERMAN TERROR SHIP NOW CARRIES ARMS TO RUSSIA

San Francisco, April 17.—A touch of irony was beneath the chartering today of the steamer Republic to the Robert Dollar Steamship company. A few months ago the Republic was the German ship Walkure, terror of Pacific waters, which attacked Tahiti and was later sunk by the French.

TELLURIDE WOMAN LEARNS FRISCO WAYS

San Francisco, April 17.—After having spent five minutes in a telephone booth at the Hotel Manx under the impression that it was an elevator, Mrs. Helen Morton, of that

dear Telluride, Colorado, came forth and suggested that the service was very decayed.

"That is the slowest elevator I ever rode in," she told the clerk. When he explained, she said, "Have you no floorwalkers here to direct guests?" and entered the proper "lift."
