The democratic central committee has organized, with Louis P. Miller elected as county chairman. Ross Bailey was elected secretary, W. H. Pattillo treasurer, and E. H. Richard member of the state committee. The committee will make an active campaign in the interests of the standardbearers of the faithful, though the hope is a pretty forlorn one in Josephine county with its overwhelmingly large republican majority. The vacancies upon the committee were filled, the entire organization being as follows:

The Coffee Shrub.

As a rule, the coffee shrub first flowers in its third year and then bears only a small crop of fruit. The fifth year is usually the time of the first considerable yield. In Java three gatherings are made aunually, called the "early," the "chief" and the "after crop," but only the second is of great very ephemeral existence, as the settling of the fruit generally takes place within twenty-four hours, and the petals wither and fall off almost immediately. A coffee estate in full flower is a very beautiful sight, but its glory is very soon past.-Westminster Ga-
