LANSING GETS CARRANZA ORDER

Washington, June 30.—Calling on Secretary of State Lansing today, Mexican Ambassador Arredondo delivered to him an official copy of the instructions which ordered release of American prisoners at Chihuahua City, the state department announced, following the visit.

Previous to the conference Lansing had said he expected General Carranza's reply to the American demands "at any moment."

The envoy said he had not delivered the reply to Lansing and that he did not know when it would arrive, or what its contents would be.

Lansing told Arredondo frankly that the patience of this government is about exhausted. He pointed out that the United States government had asked originally that Carranza's statement of attitude be made at once, whereas several days have now elapsed, and all this government has had has been the "expectation" of Consul Rodgers as to early delivery.

Lansing believed this forenoon that he was about to get the message from Arredondo. The latter visited him without it, but the indications in their conference were that Carranza's plan is to send his answer through the envoy, rather than through Consul Rodgers at Mexico City. Carranza's delay was partially explained in official quarters as due, perhaps, to an effort on his part to let matters calm down and if possible to shape up with his cabinet an answer satisfactory to the United States.

These facts developed today after the cabinet session. Only brief consideration was given the Mexican situation because of the president's haste to catch a train for New York, where he will speak tonight before the Press club.

As for the general policy and the military situation, the cabinet members said these were not altered. The state department has telegraphed Consul Rodgers that all Americans must leave Mexico at once or the United States will not be responsible for their safety, according to a telegram to Mexican Ambassador Arredondo from Mexico City today. Fewer than 300 Americans have left Mexico City, and not more than 250 from the surrounding country, the telegram says. A great majority of Americans in Mexico City have decided to remain. The Mexican government has guaranteed protection to the lives and property of Americans in the state of Guanajuato and Toluca, whenever Americans express a desire to remain.

Arredondo denied today reports from Mexico City that Americans' property was being confiscated. He has received a number of dispatches lately saying great feeling exists against Mexicans on the American side of the border and that many are being mistreated.

STRIKERS THROW BRICKS AND ROCKS

San Francisco, June 30.—A mild form of guerilla warfare is raging along the waterfront today as a result of the longshoremen's strike. Ten mounted police and 26 patrolmen have been added to the regular detail there to keep order.

Showers of bricks greeted Harry Young, manager of the California Stevedore and Ballast company, when he drove along the waterfront in his automobile. Groups of pickets passed the word along that Young was approaching. He was forced to run a veritable gauntlet south of the Ferry building. More missiles were hurled by men on a bridge over Beale street. They dropped rocks on motor trucks passing under the viaduct with supplies for strikebreakers living on barges moored off the wharves. Guards on the trucks replied with revolver shots, but there were no casualties.

After having discussed the problem of a sympathetic strike, members of the teamsters' union referred it to their executive board, with power to act.

ANOTHER RUMOR THAT VILLA IS WITH CARRANZA

Eagle Pass, June 30.—Juan Rodriguez, a Mexican resident of Texas, arriving here this afternoon from Torreon, said that Pancho Villa has joined the Carranza forces at Monclova with several hundred men. Rodriguez claims to know Villa well and says he can not be mistaken regarding his identity.

HAWLEY WORKS FOR NAVAL BASE

Washington, June 30.—Supporting a bill for the establishment of a naval base at Astoria, Congressman Hawley declared today to the house naval affairs committee that every United States naval vessel which leaves the Bremerton station passes under the nose of British guns.

"In case of war with England, the Bremerton navy yard would be useless," said Hawley.

Hawley declared the far northwest, with an area as large as Germany, capable of supporting 50,000,000 to 70,000,000 people, would be in danger of occupation by a foreign foe unless the mouth of the Columbia river was strongly guarded. He said if foreign troops ever occupied this territory, controlling the mountain passes, they never could be dislodged.

"You are aware this naval bill now provides for a commission of naval experts to study the Pacific coast with the idea of establishing another naval base," said Chairman Padgett.
