

A VICTROLA On Your Porch is a Summer Delight

The chances are that you and your family "practically live on the porch" in the summer. If you do, you'll want a Victrola to entertain you, for it requires "music in the air" to complete the delight of afternoons and evenings on the porch. Come in and let us play the records you would like to hear; then ask us about our easy terms on Victrolas, \$45 and up.

GERMANS FAIL IN VERDUN ASSAULT

Paris, Aug. 14.—French troops followed up their successes north of the Somme yesterday, with an advance south of the river in sharp fighting last night.
Southeast of Estrees, French detachments captured several trenches between Fay and the road to Denicourt, widening their positions. On the front north of the Somme there was brisk cannonading around the newly won French positions at Maurepas.
On the Verdun front, the Germans attacked three times last night east of Hill 294 on the west bank of the Meuse, and in the region of Fleury. All attacks were repulsed.
The success of the new French thrust north of the Somme in Saturday and Sunday's fighting increases the peril of the German line from Comblies to Peronne. The capture of the villages of Maurepas and Clery, necessary to an advance against Peronne from the north is believed certain under the next great French blow on this front.
The Germans bombarded the French lines around Maurepas heavily last night. They are expected to launch a heavy counter-attack to batter in the wedge thrust into their lines and it is possible this cannonading preceded a strong infantry attack.

Ladies' trimmed hats at \$1. Mrs. E. Rehkopf. \$10ff
Francis Wisner left Sunday night for Seattle where he will attend college during the coming winter.
Rev. and Mrs. O. E. Wisner left last night for Fruitvale, California, making the trip by auto.
L. Armentrout left this afternoon for San Francisco where he will spend a week attending to business affairs.
H. A. Schell left this morning for Medford where he will spend a few days attending to business matters.
Mr. and Mrs. L. T. Hodge left this afternoon for Ashland. They have been at Crescent City for several weeks.
Miss Genevieve McCracken will leave next week for Portland, where she will enter a business college in that city.
J. H. Clyde, superintendent of the O. & C. Lumber company, left Sunday for Brookings in the Miller and Randall stage.
F. H. Osgood, of Seattle, who is interested in southern Oregon mining properties, arrived from the north Sunday.
Daniel Sellow and family arrived in the city Monday morning from Sacramento, Cal., and will make their home in this vicinity.
Mr. and Mrs. George Sabia returned Sunday afternoon from Portland where they spent a few days attending Buyers Week.
Miss Sue Cook left for Medford this morning after spending Sunday in the city. She will remain at that place until school starts.
Mr. and Mrs. Geo. Hood, W. J. Anderson and Mrs. Bamber returned Sunday from a two-weeks outing, having driven to Crescent City and the coast.

Home From Outing—
Judge Colvig and wife returned Sunday from a 10-day outing at Woodruff bridge, on upper Rogue River. In the party besides Judge and Mrs. Colvig were Ralph Woodward and family, all of Medford. A pleasant outing is reported with plenty of trout fishing. The Woodruff bridge is above Prospect.

Well Known Athlete Visits Here—
Henry Jamison, accompanied by his mother and four sisters, arrived here Sunday and spent the day with Paul Blanchard. Mr. Jamison is well known in football circles, he being an All-American tackle of Cornell University. They are making a trip by auto from New York to Corona, California. Mr. Jamison went to Stanford University a year and met Mr. Blanchard at that place. After being shown the new industries of the nearby valley, Mr. Jamison remarked that this was the most promising place he had yet seen on the trip. They left this morning for Crater lake and will return here Wednesday and then go to Crescent City.

Many Steelheads Caught Sunday
Sunday was the best day of the season for fly fishing on the Rogue, and dozens of big gamy steelheads were hooked and many landed. The morning was a bit cloudy, an ideal condition for fly fishing. The best sport was had on the riffles between Grants Pass and the Golden Drift dam. Lawrence Wieland had about as much fun as mortal is permitted to have in a single day, and had 15 steelheads hooked on a trip up the river. That Wieland was able to land only seven of the big fish, and had a fairly poor batting average by allowing eight of those hooked to beat him at the game, did not lessen the enjoyment of the day. The biggest catch reported was that of the two Briggs brothers who landed 17 steelheads fishing from a boat on the riffle below the dam. Earl Crouch caught six, and other fishermen by the dozen got lesser numbers. Fishing in the evening, Jesse Johnston, who is known by all the fish in the river by his first name, landed two, having four hooked, and quitting with a 50-50 average. Joe Wharton landed two with three hooked. The steelheads are reported the best lot of fighters ever in the river, and if there is anything wrong with tackle they soon show where the weakness lies. The No. 4 professor fly was a good killer yesterday, though some of the fishermen had success with a spinner.

Returns to Gold Beach—
Roy Dixon, who was called to Josephine county some time ago has returned to his work as game warden in this county, and is now in the hills keeping his eye on deer and deer killers. He was in town last week and tells us that Mrs. Dixon, who was so seriously ill for some time, has just been able to leave the hospital at Medford, and is slowly regaining health at the home of his parents at Murphy, Josephine county.—Reporter.

To Camp on Cow Creek—
With the early hours of Monday morning the Murphy automobile loaded to the guards with camp equipment and manned by M. Murphy, Ray Murphy, S. A. Douglas, W. R. McCracken and Claude McCracken left for the upper limits of navigation on Cow Creek where they will proceed to make camp for a week, and keep the deer on the lookout dodging the bombardment of heavy artillery. Messdames Murphy and McCracken, Miss Genevieve McCracken and Master Clifford Murphy left on the morning train for Glendale, from which point they will take passage for the Cow Creek camp.

NEW YORK HAS MEAT SUPPLY FOR 8 DAYS

New York, Aug. 14.—How the 5,000,000 people living in Greater New York will be fed in the event of a railroad strike is a problem being given considerable attention here today.
Joseph Hartigan, secretary of Mayor Mitchell's committee on food supply, has recommended to Acting Mayor Frank L. Dowling that action be taken by the city government to prepare against any shortage of traffic in foodstuffs. Hartigan proposes that survey be made of all sources of food supply which could be commandeered if the strike is declared.
With the city in the grip of infantile paralysis epidemic, city authorities are trying to determine how the 2,250,000 quarts of milk the city consumes daily could be brought to the city in the event of a strike.
Meat packers estimated today that New York's supply of meat would last but eight days if the railroads were tied up. More than 500,000 tourists are now in New York, it is estimated. How these people could be fed, to say nothing of their being unable to return to their homes and places of business, is also troubling city officials.
As New York produces practically no foodstuffs, a strike which would cut off the city from its food supplies would result in appalling conditions in a short time, authorities said.

MOUNTAINEERS WARN OF STORM

Asheville, N. C., Aug. 14.—How possible heavy loss of life in the villages below the great Lake Tox-away dam, was prevented through a daring ride of mountaineers just ahead of the waters when the retaining wall broke, was told today by survivors.
The mountaineers risked death, galloped through the villages telling of the floods that followed them and warning residents to flee to the hills. Not a life was lost.
Estimates today placed property loss at half a million. Hints at rigid investigation and possible action developed today when it became known that the great retaining wall had been several times reported leaking during the past year.
Shortly before noon Sunday a stream of alarming size began seeping through the masonry, a watch was set and about six o'clock the break ripped wider and wider until it was apparent collapse of the wall was inevitable. Hardy mountaineer horsemen volunteered to ride down the valleys, to warn men, women and children of the little hamlets that would be swept. Travelling short mountain cuts and often risking their lives by breakneck speed, along narrow mountain side trails, the riders kept just ahead of the waters.

ITALY BEGINS TO SHOW STRENGTH

London, Aug. 14.—"Italy is only now beginning to put forth something like her real strength," cabled Lord Northcliffe, who is viewing the operations around Goritz, in an article published by the Times, today. "She has much reserve. Yet there should be no mistake about the strength of the Austrians' defensive organization."
"The Austrian front line (on the Carso plateau) has been blasted and drilled out of limestone rock with machinery similar to that used in making tunnels. Sniper lockers are armored with iron plates an inch thick, cemented into rock."
Because many men on both sides have worked in America, the Italians are frequently able to converse with their prisoners in English interspersed with American slang. Lord Northcliffe wired.

TIPOS WANT PRICE OF PAPER PROBED

Baltimore, Aug. 14.—"Something more substantial than perfunctory investigation" of the increased cost of white paper was demanded of congress here today at the opening session of the sixty-second annual convention of the International Typographical union.
"The grip of the rising paper market is throttling the life out of many struggling newspapers and commercial printing houses," said President Nardsden Scott in his annual report to the convention.
That hundreds of public schools are giving instructions in printing which is harmful to the pupil and the trade, was charged by delegates to the convention. Printers during the year earned net wages of \$1,041,181, according to President Scott.

TO CRATER LAKE AND BACK IN DAY

To Crater lake and back in a single day is the record established by a party from this city Sunday. Two autos, Fords, left town at five o'clock in the morning, the members of the party being Dr. J. C. Smith and family, Mrs. T. B. Cornell, Miss Irene Ahern and P. P. Proctor and family. Going by way of Sam's valley, Crater lake was reached at one o'clock in the afternoon, with the recorded mileage of 161.6 miles. After two and one-half hours in viewing the lake, the start home was made, coming by way of Central Point, reaching Grants Pass at about 11 o'clock. Stops were made to see the natural bridge, the Rogue river gorge, and other scenic points en route. The distance home by way of Central Point was 112 miles, a total mileage for the day of 273.6.

INVESTIGATE THE HIGH WHEAT PRICE

Chicago, Aug. 14.—A federal investigation of the rise in wheat prices was under way today. Assistant Federal Attorney Fleming said that big brokers and traders were being questioned by District Attorney Clynne regarding the market's jump.
The government wants to know whether a 20 cent rise in wheat in the past two weeks was due entirely to natural causes or whether it was planned in advance by traders.
In the meantime wheat prices began declining today. Prices dropped from 2 to 3 cents during the morning.
Paul Schultz, head of one of the biggest bakeries in the middle west, conferred today with Federal Trade Commissioner Hurley regarding a proposed increase in price of bread. Schultz said he would raise the price tomorrow if Hurley did not interpose objections, and that other bakers probably would follow his lead.
Crackers, rolls and other bakery products were also due to advance.
Circuit Judge Calkins and Court Reporter Roy Davis came in from Medford this morning for a session of court in this county. The two gentlemen have just returned from an outing along the upper Rogue river.
