LEMBERG AGAIN RUSSIAN OBJECTIVE

Lemberg, the capital of Galicia, which was taken by the Russians in 1914 and recaptured by the Teuton forces in 1915, is again threatened by the Russians. In the picture are shown Austrian prisoners in the latest drive and Lemberg Municipal theater.

About the Same Thing. An old colored uncle was found by the preacher prowling in his barnyard late one night. "Uncle Calhoun," said the preacher sternly, "It can't be good for your rheumatism to be prowling round here in the rain and cold."

Antiquity of Engraving. Gems were engraved at a very early period of the world's history. The very oldest specimen of this art in existence is believed to be a square signet of yellow jasper engraved in the year 1450 B. C. and now in the British museum.

FORMER BUNKIES NOW R. R. HEADS

Washington, Aug. 21.—Former "bunkies" of railroad camps, fellow workers on engines and side partners of freight trains are meeting here today. But some of them arrived in their private cars, hurry back and forth to meetings in taxicabs, while others came as ordinary passengers and trudge over the hot pavements afoot.

They are the presidents of the big railroads and some of the 640 representatives of the 400,000 trainmen in the four brotherhoods now threatening the country with a strike. Many of the presidents started railroad life as members of section gangs, brakemen or firemen. Working beside them were some of the men whose demands for an eight-hour day they are bitterly contesting.

Take the case of Bill Lanagan, one of the brotherhood representatives and A. H. Smith, New York Central president. Bill and "A. H." started railroading together a long time ago as members of the same bridge gang. Smith moved along pretty rapidly, becoming division superintendent of the Lake Shore, general superintendent of the Big Four and general manager and vice-president of the New York Central, and finally president. Bill is still in the ranks, but is a division chairman of the brotherhood.

"He is a fine fellow," said each of the other today. "Then there is Fred Underwood—Frederick D.—of the Erie. Another brotherhood man who would not allow his name to be known beyond the fact that he is called John, said today a better fellow never lived than Fred. They used to work on the same engine on the Erie."

"Yes, Fred's all right—but we've got to have that eight-hour day," said John. There are others who knew Daniel Willard when he was an engineer and so on through the list of railway presidents. A surprisingly large proportion of them started at the bottom. The situation has its other odd side, which is that many of the brotherhood men are fairly well to do, comfortably fixed beyond the fact of owning their own homes.

President Stone of the engineers is a college graduate. Each of the brotherhood presidents according to their fellow, gets at least \$10,000 a year salary. "Perhaps that explains the sort of action we get out of our presidents," said a brotherhood man. "They are \$10,000 men and we think they earn it."

CHICAGO HEAT CLAIMS TWENTY

Chicago, Aug. 21.—Relief from the terrific heat wave which has baked the plains states for the past week, is due today, according to the weather bureau here, who say showers and cool breezes will arrive before night.

Some Golf Shot.

A Glasgow golfer vouches for the following: "Playing over the Cathcart castle course one evening last summer with two friends, we were approaching the fourth green, which is of the plateau type. Having played my second, I was preparing to walk toward the green when the air was rent with loud laughter and shouting. On going forward to inquire the cause of the hilarity we learned that my shot had overrun the green, passed between the legs of the player who was at the moment in the act of driving from the fifth tee (the fifth being at right angles to the fourth) knocked his ball from the tee, and his club, descending, had made a perfect shot with my ball to the edge of the fifth green, 175 yards away."—Golfers Magazine.

There Are Stores in This City So Good That They Could Use Twice as Much Advertising Space as They Now Use--and Make It Pay!

THE BETTER THE STORE THE BETTER THE ADVERTISING PAYS. Your own observations in the store-world will confirm this truth.

PUBLICITY is bad only for a bad proposition. It is just as surely good for a good one.

What IS a "good store"? One that really SERVES THE PUBLIC, protecting its patrons as to VALUES, not merely as to PRICES.

There are many stores in this city answering to that definition completely. In every city there are always some stores that do not.

An important phase of a GOOD STORE'S SERVICE TO ITS PATRONS is its newspaper advertising. This should be complete, frank, informing. It should tell the store news as fully as a good newspaper tells the news of the day.

Perhaps the best possible NEW POLICY for the GOOD stores of this city to adopt would be that of DOUBLING THE ADVERTISING SPACE THAT THEY USE—thus giving them "elbow room"; giving them bigger opportunities for telling their patrons, in detail, about every selling event, about every bargain offering, about every dollar's worth of new stocks. Of course, even HALF ENOUGH ADVERTISING pays the really good store; but ADEQUATE ADVERTISING would pay much better.
