Superintendent Hutton Talks—
"The so-called brewery amendment would open 10,000 original package saloons at country cross roads and city corners, paying no license and with all regulations repealed," said R. P. Hutton, superintendent of the Oregon Anti-Saloon league, addressing a mass meeting in the Baptist church last night. Continuing, he said: "Every loganberry grower and manufacturer should contribute his vote, his time and some of his substance to the campaign for '315 X No' against the beer amendment, and save the loganberry future of Oregon. Oregon is nursing this new infant industry, and she needs no beer to perform the task. Neither industrial babies nor human babies can be raised on beer. Beer can raise nothing but foam, froth and false hopes, and in either case the bubble is soon burst."

MABEL GARRISON

One of the most important Victor engagements of the year is that of this gifted soprano of the Metropolitan Opera forces. This month's record, "Mignon—Polonaise," displays well the youthful freshness of her voice, which is of flute-like purity and marvelously flexible.

If you like high class records you will want this one in your collection.
