

Pendleton Normal School Proven Necessity

(Copied from Portland Oregonian.)

MONMOUTH, Ore., June 26.—The Oregon Normal school opened this week . . . students enrolled 785, largest on record for state Normal in Oregon . . . how to care for large student body a problem . . . 800 being crowded into auditorium with seating capacity of 550. Galleries filled with extra chairs in aisles. More than 150 students seated on platform. New boarding houses completed, additions to rooming houses built and tents used. One hundred girls sleep on upper floor of school. The official school report gives 150 grade pupils in Monmouth, for teacher practice.

Read what those you have elected to handle the affairs of your state and who are thoroughly informed regarding school conditions in Oregon have to say concerning measure 308 on the ballot at the coming election:

- By James Withycombe, Governor of Oregon: "Oregon is unquestionably in need of more normal school work and Pendleton is the logical place for a school of this class in Eastern Oregon."
- By J. A. Churchill, State Superintendent of Public Instruction: "I trust that the voters of the State will assist in raising the standard of our schools by establishing a State Normal School at Pendleton."
- By P. L. Campbell, President of the University of Oregon: "At least one additional Normal School is urgently needed in Oregon."
- By W. J. Kerr, President of the Oregon Agricultural College: "Since the people of Pendleton are initiating a measure for the establishment of a Normal School at that place, it will give me pleasure to support this measure."
- By J. H. Ackerman, President Oregon Normal School, at Monmouth: "A careful analysis of the situation will convince any one that Oregon needs a Normal School in Eastern Oregon and Pendleton fills all the government requirements."
- By the County School Superintendents of Oregon: "Resolved, that it is the sense of the County School Superintendents of the State of Oregon, in convention assembled, that the best interests of the schools of the State demand increased facilities for the training of teachers, and that we, therefore, endorse the initiative measure to establish a Normal School at Pendleton."
- By Mrs. Charles H. Castner, President of the Oregon Federation of Women's Clubs: "I most heartily endorse the location of said Normal School at Pendleton."
- Prof. Robert C. French, Former President of the Normal School Located at Weston: "An immediate establishment of such a school at some central point such as Pendleton would prove a great asset to the State of Oregon."
- B. F. Mulkey, Ex-President Southern Oregon Normal School: "I shall support the location of an Eastern Oregon Normal School at Pendleton."

State Board of Regents of Oregon Normal School declares that "the necessity for additional Normal school facilities in Oregon is apparent." Portland Chamber of Commerce endorses measure 308 and says Pendleton most logical location for Normal school in Eastern Oregon.

TROUBLE AHEAD FOR PORTLAND JITNEY DRIVERS
Portland, Oct. 21.—Jitney bus men declared today they would be driven off the streets if the city council framed the ordinance it contemplates. The proposed law prohibits jitneys from paralleling trolley car lines, which has the effect of ejecting them from the principal thoroughfares and excluding them from the downtown district.

Cruelly Parted.
Said one charming young creature while sipping her iced tea, "Did you hear that Etelka and Olaf have broken their engagement?"

"Heavens, no!" exclaimed the other charming creature, almost choking over her cake. "I thought they were the original turtleloves."

"Well, they were, but Olaf is short-sighted and has to sit in the very first row at the moving picture theaters, and Etelka can see only from the very back, and she said she would be awfully unhappy if they had to spend half their lives apart and that the best thing to do was not to marry. And there you are."—Chesham's Equivocal.

Talking Weather.
Patience—Why, he even talked about the weather when he proposed to me. Patience—You don't mean it!

"Yes, I do," she said. "I married him because he talked about the weather."

MEXICO TO CHANGE HER AMBASSADORS

Mexico City, Oct. 21.—Eliseo Arredondo, ambassador-designate to Washington, will return to Mexico City to become secretary of government in the Carranza cabinet, it was learned from authority today.

He will be succeeded at Washington by Luis Cabrera, at present head of the Mexican section of the Mexican-American commission, and one of the best informed men in Mexico on American affairs.

General Pablo Gonzales is leaving at once for Atlantic City to replace Cabrera. Arredondo will meet General Carranza's family at San Antonio and journey to California with them before returning to Mexico City. General Francisco Cosi arrived early today to take Gonzales' command in Morelos.

CRANK MAY SPEND HIS LIFE IN JAIL

Pittsburg, Oct. 21.—Richmond Cullen may spend the remainder of his life in an asylum. The youthful Irish-American who made persistent efforts yesterday to reach President Wilson while the chief executive was on an automobile tour of the city, was an inmate of Marshalsea, the Allegheny county institution for insane, today. He was committed there following examination by police physicians, who declared him a mental defective. Dr. Barclay, physician to the Cullen family, declared that only on Thursday he had treated Cullen for an acute disorder. Cullen maintained throughout the examination that he only wanted to "interview" the president on his foreign policies.

"But he would have had to agree to change them, or suffer the consequences," Cullen is reported to have said.

What the "consequences" might have been, Cullen did not say.

BIG ESTATE MAY GO TO GOVERNMENT

San Francisco, Oct. 21.—Eight millions of dollars of the estate of the late Henry Miller, cattle king, may go to the federal government and the state of California, if the value of the whole property is appraised at \$40,000,000, as expected.

This was the declaration today of persons familiar with the workings of the state inheritance law and the graduated federal tax embodied in the last income tax law.

The state will demand 10 per cent, or \$4,000,000, and the revenue act enables the government to make another assessment of 10 per cent. The two taxes would make the heaviest levy made on a single estate in the history of the United States.

It is understood that Collector of Internal Revenue Scott has asked the Washington officials for detailed instructions regarding the government tax and has taken other steps looking to its collection.

PUBLIC LIBRARY GETS MAP FROM STATE FORESTER

A new wall map of Oregon has lately been placed in the public library, presented by the state forester. Although intended primarily to show the forest area, it is a complete map that will be valuable for general use.

Several interesting bulletins on various subjects also are just received. One of considerable importance is published by the School of Commerce at the University of Oregon. It is an extensive survey of the box shoo market in foreign countries and is intended for mill men of the northwest.

The subject of "Teachers' Cottages" is discussed in another helpful bulletin from the Bureau of Education, telling what has been done in the various states toward solving this problem for the rural teachers. A "Handbook for Rural Teachers" is issued by the Idaho State Board of Education and offers practical suggestions that may be adapted to any locality.

"The Case for the Shorter Work-Day" is of especial interest at the present time. This publication is a reprint of the brief in the Bunting case to test the constitutionality of the Oregon ten-hour law.

Reports and bulletins from the Oregon officials and state commissions are also regularly received.

SLIGHT DECLINE IN WHEAT PRICES

Chicago, Oct. 21.—Week-end realising caused a temporary decline in wheat, after opening somewhat higher than yesterday's close. Shortly after the opening the high price of the day, 170 1/2 for both December and May, was reached and a decline below yesterday's close followed as speculators sold freely. At today's close good buying and smaller offerings had sent December back to the opening price of 170 1/2, and May up 1/4 at 170 1/2.

Corn showed wide fluctuations on uncertain reports of crop conditions. Week-end profit-taking tended to depress prices for a time. Low for the morning was 83 1/2 for December. December closed up two at 87 and May up 1/4 at 87 1/2.

Oats had a slight gain on light buying. December closed up 1/4 at 50 1/2, and May up 1/4 at 54 1/2.

Provisions showed sharp advances, especially in pork.

Why Sheep Have Wool.
If you want to ask a sheep where he got his wool and why take a dog into a mountain pasture band and if the sheep are afraid of the dog they will invariably run uphill rather than down. You have your answer. The ancestors of the domestic sheep, like wild sheep of the present day, lived among high mountains and needed their woolly covering to protect them against the constant cold of high atmospheres.

They chose the high and inhospitable region to live in because they found the fierce flesh eating animals of the plains too strong for them. A proof of these facts is that the wool grows on a sheep the year round.—Chicago News.

AMERICAN HORSE DEALER THOUGHT LOST ON ALAUNIA

London, Oct. 21.—E. R. Sloane, an American horse dealer, probably was lost on the Alaunia. Charles Brodie, of Washington, D. C., reported to the American embassy this afternoon. Brodie said he was in a lifeboat which had pulled away from the liner's side when he saw Sloane and a Russian passenger running about the deck searching for life belts. The Alaunia sank a few minutes later.
