## FIRST MEETING AT TABERNACLE

Where only a few days ago was a vacant lot, Sunday evening there was gathered an audience that probably included one-third of the population of Grants Pass, and yet there was room in the mammoth tabernacle for more. It is 40x115 feet. The building is the old Carner factory, moved to a new site and adapted to the present need.

There was a chorus of 150 voices present, beside those playing instruments. Mr. Vessey had done wonders with them on short notice and the singing was a great feature of the meeting, though most of the songs were new. Both Mr. Mathis and Mr. Vessey highly complimented the musical talent of Grants Pass and the willingness of the people to co-operate in a musical way, and in every way.

Much credit is due the building committee and those who gave faithful volunteer labor on the tabernacle day after day. It was complete and ready for the service last night. Its acoustic properties are excellent, and good ventilation is made possible by a number of high hinged windows.

After spirited singing, and prayer by Rev. J. H. Harmon, Rev. S. A. Douglas introduced Mr. Mathis and Mr. and Mrs. Vessey to the audience. Mr. Vessey rendered a concert solo and a vocal solo, to the great delight of the audience. Mr. Vessey's solo work and his extraordinary ability as a chorus leader did fair to be a great feature of the "meeting" in Grants Pass, as they were in Medford, Klamath Falls and Ashland last spring. Mrs. Vessey is a skilled accompanist.

Mr. Mathis made a few introductory remarks as to his policy concerning the meeting. He said he had come to help the churches and the people in every way in his power, and asked their earnest co-operation. His sermon was on the subject of sin, taking as a basis the text, "Thou art weighed in the balances and found wanting." He weighed the sins of men over against the ten commandments, speaking at length against worship of greed and gain, against Sabbath desecration and swearing. He paid special attention to the latter, saying that swearing breaks three laws: the law of the state, the law of decency, and the law of God. He said that a man who swore in the presence of boys did them a wrong. He declared himself to be the friend of the American boy. The audience paid close attention during the discourse, and many of the assertions made were cheered to the echo. Tonight, Mr. Mathis announced that he would take up the remainder of the commandments in the same manner as last night.

Chicago—Oscar Battling Nelson, pugilist, would not agree with the conductor that his transfer was no good. He's in police court today.

## PRESSING CLOTHES IS AS MUCH AN ART AS MAKING THEM

We claim that to properly and thoroughly press any kind of garment it must be done on a Hoffman sanitary steam clothes pressing machine. This method produces the natural body shape in clothes of every description, raises the nap, brings out the color, gives the garment an appearance of newness and causes it to last much longer. Let us convince you.
