Old Court House Moved—

Pete Herschberger, who has the contract for the moving of the old court house, has about completed the work, and is now clearing the site for the foundation of the new building.

Plan Lease of Creamery—

A special meeting of the stockholders of the Rogue Valley creamery will be held at the Commercial club rooms, at 10 o'clock Tuesday morning, called for the purpose of authorizing a lease of the creamery plant to Charles DeForrest. Mr. DeForrest is now manager at the creamery, but proposes to lease the property from the stockholders at the rate of \$40 per month for the period of one year, together with an option to purchase at \$4,500 at any time within the year.

Old Papers Solicited—

The Women's association of Bethany Presbyterian church opened their old paper office at the rink this afternoon. Donations of old papers are already coming in and the business bids fair to be a lively one by the end of the week. The women solicit a community interest in the enterprise and ask a generous contribution towards a carload before the week's end. The skating rink will be open every afternoon from 1 to 5. 917

From Gold Hill by Boat—

Guy Harvey and Fred Dodge made a trip down the river Sunday from Gold Hill in a small boat. The boat was not much larger than a canoe but the rapids were taken successfully until Savage Rapids was reached. There one of the oars was lost in the swift waters and before it was recovered the other was dropped out. The light skiff nearly came to grief in the rough water before the oar could be found. A few fish were caught on the trip. An average of six miles an hour was made, the men reaching Grants Pass, late in the afternoon.

Legislators May Eat Fish—

It has been proposed that Rogue river steelhead trout be served as a side dish at the Monday luncheon of the Commercial club next week when the southern Oregon legislators are expected to be guests of the club. It is expected that club members will donate enough of the fish to supply the hundred members and guests who are expected to be present Monday, a good start having been made when Dr. Flanagan guaranteed to supply a half dozen of the big fellows of his own catching. As the doctor's guarantee is gilt edged when it comes to fishing there is no doubt about the fish feed next Monday.

Fellowship Lunch—

Attendants at the evening service at Bethany Presbyterian church last night were given a treat aside from the most excellent sermon on "Making Room for John in the Pew" by Rev. L. Myron Booser. They were asked to remain after service and enjoyed an hour of fellowship with chocolate and doughnuts served by the men of the church. It is proposed to have fellowship lunch on other occasions.

Light Vote Being Cast—

Because of there being no contests in the municipal election being held today, the voters are not turning out very heavily. Only 15 votes were recorded at the city hall at three o'clock and the vote at other wards was accordingly light. There are rumors around town that an attempt will be made to elect some officers other than those regularly nominated, a small organized opposition being sufficient if but few votes are being cast.

Rapid selling will be in order when these beautiful Crepe-de-chine Blouses go on sale tomorrow, specially priced for this occasion at \$3.85 and \$4.85.

It's an interesting story as to how these Blouses are made and sold—and also how such remarkable values are possible; but far more interesting the fact that they are here, and are obtainable at prices that represent such substantial savings. One word of explanation, however, we will offer, and that is that their purchase was arranged for months ago, before the prices of silks had reached their present dizzy heights.

There are several styles, all showing the latest style development—with dainty touches here and there to differentiate them from each other as well as from the Blouses that might be found elsewhere. They possess sharp, character and distinction, and are all made of rich, lustrous pure silk Crepe-de-chine of an excellent quality.

The allotment is limited, and no more can be obtained to sell at these same low prices
