His wife will now soon be presented at the court of Queen Wilhelmina of Holland and will enter into the social life of the nobility.

Team Runs Away— A team belonging to a wood hauler caused considerable excitement this afternoon, when starting in the alley in the rear of the Mocha restaurant it went at top speed up Sixth street. Two lamp posts, one at the railroad crossing and the other in front of the Kinney and Truax store were knocked down and broken. When they knocked the second post down, one horse was so badly hurt that they were unable to go further. The name of the owner of the team was not learned.

THE SHELLEY CREEK MINING DISTRICT The Lucky Boy copper property of this place, owned by Otto Anderson and bonded by E. F. Hellere, of Portland, has a crew of men getting out ore which they will begin shipping to Tacoma as soon as the roads will permit. The Britten copper mine on Patrick's creek is also in operation and some rich ore is being taken out. There are 800 feet of tunnel and 60 feet of shafting on the property. They are now running a 500 foot tunnel to cut the ledge 200 feet below the shaft, expecting to strike the ledge in 21 feet. This copper property is assured considerable attention during the coming summer.

Mrs. McPherson has opened up a stopping place at the Graham house at Monumental which will be a great accommodation to tourists. Mr. McPherson is in charge of the Monumental mining property. Work on Guy Gravlin's chrome property will be resumed as soon as the snow goes away. Bodies of chrome have been opened up on many parts of the property and there is all indication of an unlimited deposit. It runs 58.16 per cent chrome, 4 per cent silica and 6 per cent platinum. O. B. Lauff and West Duley, of Crescent City, also own some valuable copper property in this district and it is believed they will soon begin operations.

Judging from the many snow shoe and ski tracks one sees in this vicinity, the snow isn't keeping anyone in. J. N. Britten snowshoed to Waldo last week. Bill Miller, brother of Mrs. Hellere, is assisting in getting the mail over the mountains during the snow storm. Wagons are almost through now and the stage will be making regular trips in a few days. Through the mines above mentioned are in Del Norte county, all ores will be shipped through Grants Pass, therefore giving teams or trucks of that community employment. Provisions for the mines are also shipped in here from Grants Pass.

LELAND

Born, to Mr. and Mrs. Jay Reed, a daughter on March 10. A party was given in honor of Geo. Jantzer and bride at the Columbia mine last Saturday evening. A very pleasant time was enjoyed. Dr. Williams was called to see Guy Goff's child, who has been quite sick. Mrs. Amy Klum made a business trip to Grants Pass last Monday. A. C. Epperly left for Grants Pass Sunday evening, intending to return in his car which has been stored in town for the winter. Dr. Knott, of Glendale, was called last Monday to see Wm. Light, who has a severe attack of erysipelas. This disease seems to be quite popular on Grave creek, there being five cases this winter. Mrs. Allen Reed is also ill with it. Miss Jean Williams, who had to give up her high school duties in Grants Pass on account of illness, is improving. Will McMichael has leased the Klum mine and is very busy running a giant and a good clean up is expected. Since the mud is drying up and the spring road work will soon commence, it is to be hoped for the mining interests and the heavy teaming that has to be done to the mines, that a little more money will be spent on graveling some of the deep mud holes between Leland and Placer. A little more gravelled road and not so much dragging would be appreciated as there is complaint that some of the worst places are almost impassable.

Home of a Workingman. The mechanic who eats underdone biscuits in a leaky kitchen pressed over by a discontented wife is not a good investment for his employer. Bad homes are as great an enemy to industrial improvement as bad habits, says Ida M. Tarbell in "New Ideals in Business."

Competition itself is forcing employers to consider the outside life of their employees," says Miss Tarbell. "The first and most important thing they must consider is the home the man lives in. A good workingman wants a home. He wants it possible to own his home. To have efficient, trustworthy and steady men you must have healthy and contented men. Men are neither healthy nor contented in wretched homes."

Squelching a Dealer. "Can I sell you some antiques, sir?" "What have you in stock?" "I've got a chair George Washington sat in, a cradle Johnny Lind was rocked in, a mirror used by Catherine the Great of Russia and"— "Say no more. These things are comparatively modern." "But consider, sir"— "I want some real antiques. In fact, I am anxious to acquire the set of tools used by Noah in building the ark."—Brooklyn Citizen.

Curious. A lady one day remarked to Bulwer Lytton how odd it was that a dove (Latin, colombe) should have been sent out to find the old world, and Columbus (Colombe) should have found the new. "Yes," agreed the novelist, "but more curious still is the fact that one came from Noah and the other from Genoa!"
