MAP SHOWING HIGHWAYS OF BONDING BILL

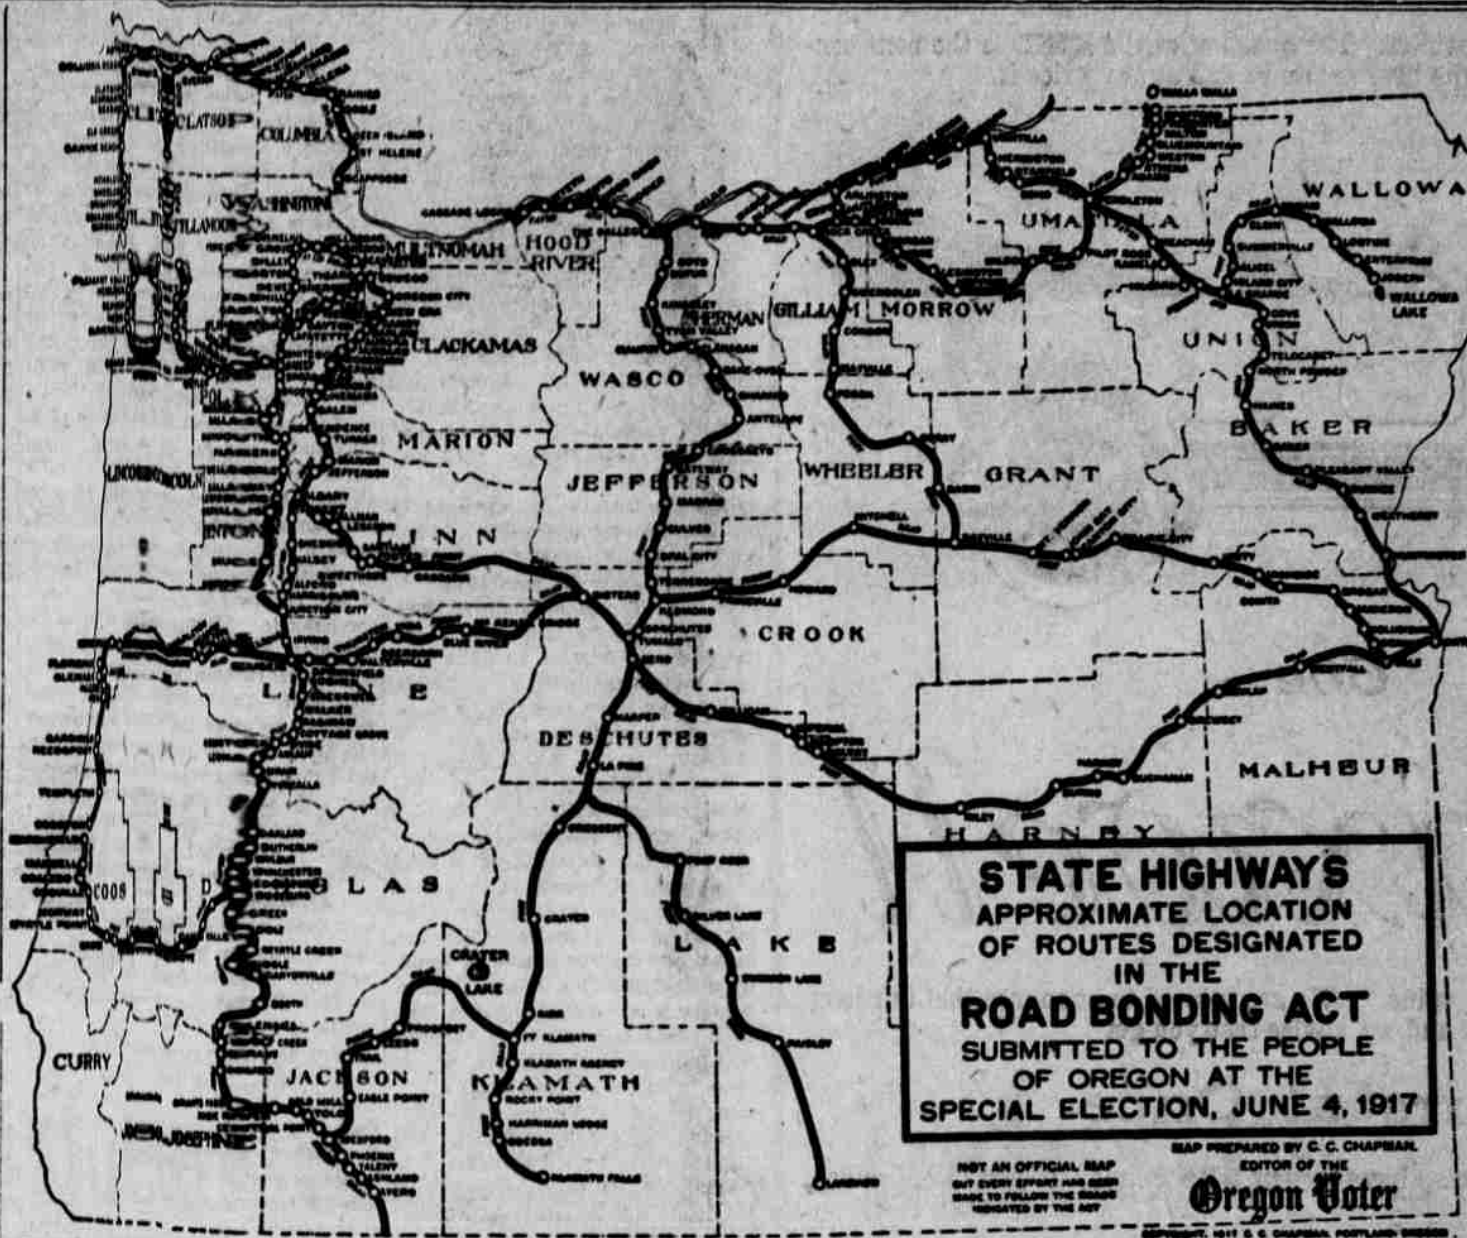

ROADS TO BE IMPROVED IF THE MEASURE IS ADOPTED BY THE VOTERS

PAVED, FOREST AND POST ROADS

Come Under Three Classifications, Some to Be Improved Through Federal Aid

We present herewith a revised map of the highway routes designated by the road bonding bill. This map corrects many of the errors made in the hastily-prepared sketches that were published soon after the legislature passed the bill. It also shows the cities and towns along the state highways.

While this is not an official map, it has been inspected informally by the members of the State Highway Commission. The commissioners are precluded by their official positions from expressing any opinion as to exactly where the roads will go, until such time as they hold hearings in the different counties and take such formal action as the law requires in locating and designating the highways permanently.

"Paved road" is those designated to be paved.

ties prepare the road-beds. This simply includes grading. It does not involve the county in the expense of cement or crushed rock foundation

as part of the paving.

"Post roads" are highways constructed in co-operation with the federal government. Any designated

highway over which mail is or may be carried is subject to classification
