

# GRANTS PASS OPERA HOUSE ONE NIGHT ONLY Sat. April 7th

This entertainment will play here one night and Medford three nights en route to Cort Theatres north.

Easter Sunday date being cancelled out of courtesy to the clergy, all seats will be 50c and 75c. No 25c admission.

## Alexander Show a Road Show of Merit and Class

"Alexander and company" will be the attraction at the Opera House for one day, April 7th.

For the benefit of those who have not heard of Alexander on the coast where he last year scored the greatest triumph ever scored by any road attraction in this part of the United States, let it be stated that Alexander is the only recognized magician in the American theatre today. Since the passing of the Great Thruston, there has been only one man who has held the distinction of being the foremost exponent of the black art, crystal reading and Simla Seance.

One year ago Alexander played for four weeks in the Helig theatre Portland, Alhambra theatre Seattle and the Auditorium theatre Spokane. This year he has been persuaded to break the jump to the larger cities of the north by playing a split week in Medford and Eugene.

Alexander has spent most of his life in the Orient where he has studied the black art among the ancient Hindu and Arab. He has mastered all the magic as offered by the once peer of magicians, Herman the Great and the Great Thruston. While these King regents of their age were heralded as the greatest brain marvels in the world, Alexan-

der the peer of magicians, and White Mathama of the twentieth century, offers an attraction so intently new and unusual albeit mystifying and awe-inspiring that the most learned professors and business geniuses of the day have pronounced this exhibition of the uncanny an occult phenomena.

The greater part of the last half of the show is the Simla Seance and in this Seance Alexander presents himself as he is known and worshipped in the east, the White Mathama, (crystal seer). He answers questions, written and sealed, gives the name of the writer and tells them more than they themselves know about their lives and many things that they thought no living man or woman could know.

The performance is further enhanced by oriental girls who offer the dances of the Orient and the dances of the religious rites of Asia Minor. This novelty is presented in the Oriental stage setting interpreted from the original settings in the palace of black art in Bombay.

The attraction is the highest class attraction of its kind that has ever been offered in a theatre in the United States.

## ALEXANDER

**ALEXANDER PREDICTS**  
Alexander has predicted everything of national importance or interest for the past 10 years. The scores of the ball games and result of the world series was predicted by Alexander last year.

**SUNDAY ENGAGEMENT CANCELLED**  
Out of courtesy to local clergy the Sunday advertised engagement has been cancelled. The attraction will be shown only one day.

"ALETA," Artistic Dancer with Alexander at Opera House.

Further enhancing the performance of Alexander at the Opera house for Saturday, April 7th, is the artistic and oriental dancing of Deli Martel, queen of Bombay and her troupe of oriental dancers.

The Alexander attraction is something far out of the ordinary in the line of magic and black art exhibition. As this attraction has never before been secured for exhibition in Grants Pass a little advance matter on this attraction is necessary.

Alexander played an engagement on the Pacific coast last year securing such a triumph in the Helig theatre of Portland and Alhambra theatre of Seattle that these cities have booked Alexander for a month's engagement in each theatre for a return engagement this year.

Alexander comes to the opera house direct from the MacDonough theatre in Oakland where he has played a two weeks' engagement and the Clunie theatre of Sacramento where the attraction played for one week to capacity houses.

The performance is divided into two parts. The first part being a series of the most mystifying and astounding feats of magic ever presented upon an American stage.

The second part of the performance styled the Simla Seance is without question the most marvelous and awe-inspiring act that has ever been conceived for the stage. Any person who does not leave the theatre after a performance of Alexander thoroughly mystified and puzzled surely is a gilt edged pessimist and skeptic.

## THE SIMLA SEANCE

Alexander is the originator of the Simla Seance, a performance that is the most mystifying and awe-inspiring that has ever been offered on an American stage. The most learned men in the country have pronounced this feature an occult phenomenon.

SEATS NOW SELLING AT HORNING'S. BEGINS AT 8:30

## THE MAN WHO KNOWS

Just what Alexander, billed as the man who knows, does know regarding the intimate life and affairs of the general public, can be realized when the statement is made and statistics shown that night after night during his performances in the larger cities where he plays for weeks at a time, the same people come back again and again to witness the performance and ask questions pertaining to their personal affairs.

## PORTLAND MARKETS

Portland, April 4.—Today's market quotations were:

John S. Orth, Medford.

## MAY CONSCRIPT TO RAISE MEN FOR ARMY

Washington, April 4.—By the time congress acts on the "war resolution" all plans for assembling all the nation's forces to strike at the imperial government of Germany will be ready for presentation by the president.

Army recruiting based on selective conscription of the country's young men as rapidly as they can be equipped, officered and trained, is considered probably the most important of the war plans.

All men except those exempted—such as married men, mechanical experts, scientists—will be expected to come under the colors.

The government will have some designation—a button probably—which will be given to those exempted and otherwise serving the country, but who are not under training. This is the same scheme followed by England to protect those not actually in the army from being dubbed "slackers."

Under the three-year basis plan, it is the intention of the government to train men in increments of 500,000 until there are sufficient numbers to beat Germany. No men will be sent to Europe immediately; probably none will go for at least six months. The present regulars believe they would be the first expeditionary force to go, leaving the newly trained men as a home guard until the second increment of 500,000 men is trained.

The maximum and minimum age

of men at first is expected to be 18 and 23.

Pending the raising of America's army, this government is making preparations to ship unlimited supplies to the allies—including not only money, but food and ammunition.

The greatest problem is admittedly getting the supplies to the entente ports. Hence the big problem before the navy, according to navy officers is creating effective means of combatting the U boat. Naval co-operation with the allies already has been planned in detail, which is naturally secret.

The national defense council—President Wilson's advisory war cabinet—is in daily session, methodically working out details of mobilizing resources, plans of economizing in all these resources and means of hastening supplies for the army and navy—and the allies.

"The typewriter has limitations." "Eh?" "When you're writing with a pen and don't know how to spell a word you can drop a blot."—Kansas City Journal.

Happe—The man's gone through twenty fortunes or more.

Chappe—Great Scott! He doesn't look like a spendthrift.

Happe—He isn't. He's an expert accountant.

"His is the right kind of optimism."

"Why?" "He doesn't merely say that times are going to be better. He keeps working all the time to make sure of it."—Detroit Free Press.

"Smith's wife worked him so cleverly about getting her a motorcar for a birthday present that he thought it was his own idea."

"I see. A case of auto suggestion."—Detroit Free Press.

Beart—Bullen has failed for half a million, and his creditors will get about fifty thousand. Lambleigh—How does he feel about it? Beart—Sore, of course. Fifty thousand is a lot of money to give up.—Exchange.

## DEMOCRATS WIN IN CHICAGO ELECTION

Chicago, April 4.—In one of the most turbulent elections in recent years, non-partisans turned the political machines topsy-turvy here yesterday and administered a resounding rebuke to Mayor Thompson and the republican city hall forces.

Besides electing the city clerk and city treasurer, the democrats won 22 seats in the city council. The socialists elected two and the republicans the remaining twelve. Other machines also went into the ditch. In the river wards, where fights culminated in the murder of a Grogan worker, independent democrats elected their candidate. Bloodshed and arrests were common occurrences along the levee throughout the day.

Today is a gala day for the democrats. Two years ago Thompson was elected as mayor by 147,000 plurality and the republicans carried into office 23 aldermen. Yesterday's results indicate a complete reversal.

To a socialist goes the honor of piling up the highest plurality of an aldermanic candidate. John C. Kennedy, running for re-election, rolled up more votes than his three opponents combined. His majority was 6,157.

A physician says that ten minutes of worry are more enervating than a week of work.

According to modern etiquette, the amethyst is the only stone which may be worn during mourning.
