GERMAN SPY FOUND

San Francisco, May 10,-In the arrest here today of Lieut. Frank Wolf, member of the aviation corps of the German army, alias Frank Fels, department of justice officials declare they have taken into custody a man whom they believe to be one of the most important agents of the kaiser in this country. When arrested he was found to have complete data regarding American aviation strength, maps of the San Francisco bay and vicinity, photographs and drawings of forts along the Pacific coast and other data of value to an enemy to the United States.

ROSES

How to Cut Them. Prepared by the U. S. department of agriculture.

HERE is a right as well as a wrong way to cut The wrong way may seriously injure the blossom producing properties of the plants, it is pointed out by specialists of the United States department of agriculture. This applies particularly, of course, to rose plants chosen and grown especially for cut flower production. Such roses will be largely of the peretual blooming sorts

When a rose is cut from such plants-ten roses or other perpetual bloomers-only two or three eyes of the current sea son's growth of that branch should be left on the plant. This should give the roses very long

BOSES ON THE LAWN.

cut close to It will seem like destroying the bush to take so much off it, but if the object is the production of roses the cutting away of the surplus wood with merciless skill will attain the desired end.

If the spring pruning has not been sufficiently severe the plant is likely to have long, naked stalks and short stems to the

With this character of rose growth only one or two strong leaf buds should be left on the branch when the flower is cut. so as to stimulate as much growth as possible from the base of the plant.

The greatest temptation to leave wood is where there are two or more buds on one branch. some being small when the terminal one is open. This tempta tion to follow a bad practice can be avoided by pinching off all side shoots after a bud has formed on the end of a branch This ummer pruning will encourage additional blooms on varieties which bloom more than once a
