# NAVAL SHELLS ARE

Washington, May 22. Some of the shells aboard the armed American liners Mongolia and St. Louis to be used in resisting submarine attacks were made during the Spanish-American war.

This came to light today when Admiral Earle, chief of the Ordnance department, submitted to Secretary Daniels a report on the accident which caused the death of two American nurses on the armed merchant ship Mongolia. Some of the shells used for the merchant craft, the report said, were made during the Spanish-American war.

Admiral Earle held that when the shells were made did not enter into consideration, because they were supposed to operate perfectly despite age and exposure to the elements.

A thorough investigation into the St. Louis incident has dissipated the suspicions that German spies had "doctored" the shells, according to

#### FRENCH OFFENSIVE him twice as much to get anywhere WINS BECAUSE EARLY

Paris, May 22.-France's great offensive beginning in April, forestalled a German offensive movement; its net result has not only been ground gained, but it has foreed German army commanders to use all their reserves in attempts to stop the French advances.

Premier Ribot so declared in a statement today, made on the eve of interpellations in the chamber of deputies as to France's present mili-

tary situation. Perhaps the people expected too much," Ribot asserted, "discussing the offensive. But if faults have been found in the past, these have now been rectified in the changes we have made. Military headquarters are now solely concerned with military matters."

The premier declared the submarine menace had been greatly ameliorated recently.

## ALL MUST REGISTER EXEMPTIONS LATER

Portland, May 22.—Among the many questions asked every day at SECOND CLASS MAIL garding requirements of the war census, to be held Tuesday, June 5, the following are typical:

"I am a man 30 years old. I will be 31 on June 20. Do I have to register on war census day?"

The answer is, yes. Every male resident between the ages of 21 and 30 years, inclusive, must register. In other words, every man who has passed his 21st birthday and has not passed his 31st birthday, must register

If a man's 31st birthday should fall on June 5, the date of the war census, he is then 31 years old and not subject to registration. If he is 31 years old the next day, June 6. then he must register.

"I am a British subject, 28 years old. I tried to enlist in the Oregon national guard, but was rejected on account of poor physical condition. Do I have to register?"

Yes. All male residents between the ages of 21 and 30 years, inclu-

sive, must register under penalty of imprisonment.

My age is 39 years and I am a farmer. Am I subject to penalty if I do not register?"

How Javanese Settle Quarrele.

The Javanese manner of settling quarrels is quite original. When one man has offended another the injured party gives notice that he is angry by drawing in the sand before the door of the offender a circle with a straight line across it, indicating that his affection, which would have been eternal, has been cut in two. Friends of bothparties then shut them up. They parley awhile, then pretend to be born again, prattle as little children and finally as men become reconciled and embrace. Should one be refractory and refuse to be conciliated he is ostractzed by the community so effectually that he is seen brought to terms.
