

BROOKINGS MAINTAINS HIGH LEVEL OF LIVING AND EMPLOYMENT CONDITIONS

To the Public—

On account of the many letters we have been receiving from parties in this and other localities, we have deemed it best to set out in an open letter the conditions of living, employment and recreation that surround the employees of this company.

Location, Climate and General Surrounding

The town of Brookings and the manufacturing plant are located on a plateau about 100 feet above ocean level and running from the shore line back about three-quarters of a mile. Unlike most saw mill towns, the site is rolling bench land, free from stumps and slashings. The climate is mild. Snowfall is a rarity, and during the summer months the weather is that of a beach resort. In the winter the temperature is moderate.

The view of the ocean, beach and surroundings is beautiful.

A good public school is provided for all grades; moving picture theatre with a seating capacity of 300 with two weekly shows; general store carrying a large stock at reasonable prices; also a well equipped hospital is provided for employees and families, and is in charge of a first class physician and surgeon with trained nurse in attendance.

Living Accommodations

For single men there is a large hotel provided with showers and other facilities, with table board that is unexcelled in its line.

In addition, comfortable bunk houses are provided to take care of excess of single men over and above the accommodations provided in the hotel. Rate of board 6.25 per week, lodging 50c and up, according to accommodations.

For married men comfortable houses are provided with rents ranging from \$6 per month and up, according to type selected; water, light and wood extra at nominal rates.

usually prevailing in municipalities of like character.

Wages and Working Conditions
The minimum rate for common labor is \$3.00 per day of ten hours at the present time in all departments, with usual advance above this rate for responsible positions.

The company operates a saw mill, logging camp, railroads, wharves and shipping; runs its own line of steamers to California points.

Requirements Applicants Must Fulfill

No man over 50 years of age will be employed.

Before entering our employ, each and every applicant will be obliged to pass an examination by the company's physician and satisfy him as to physical condition.

Married men must work for the company at least 30 days before they will be permitted to bring their families, in order that both parties may be satisfied as to conditions and ability.

No liquor is permitted in the town; parties found intoxicated will be summarily discharged.

General
We desire to build up a community of sober, thrifty, industrious men with families, and such will be given the preference in the matter of employment at all times.

There is plenty of continuous employment here for a large number of active, sober men in practically all classes of work, and any parties meeting these requirements can feel assured of employment on reporting here.

The company invites correspondence from parties interested, and further information can be obtained from M. Jordan and other stage operators at Grants Pass or F. G. Lung, Medford.

This point is reached by auto stage from Grants Pass via Crescent City, at the present time consuming about nine hours for the trip.

ONE FRENCHMAN WITH MACHINE GUN ROUTS COUNTER-ATTACK BY EIGHT HUNDRED TEUTONS

Paris, June 10.—(By mail)—Emile Alexandre Bigorne, machine gun operator, has just been awarded the Legion of Honor, the highest military decoration France can give to an ordinary soldier. Bigorne won the mark of distinction by repulsing single handed a German counter-attack.

Not less than 800 Germans were killed, wounded or put to flight. Bigorne's exploit demonstrates to some extent the role the machine gun has come to play in the present war where it is without question the most formidable weapon now known. Its death dealing effects far exceed those of heavy artillery and are probably only approached by the "Boisante-quinze" guns of the French.

Following one of the French advances in the early part of the present offensive Bigorne found himself holding down a German trench in company with a dozen other machine gun men. The Germans had kept them isolated all night with a barrage fire and early in the morning had shown indications of preparing a counter-attack.

With the gradual increase of the morning lights the Germans fire became more accurate with the result that at one by one Bigorne's comrades were killed. Orders had been given to hold the trench at all costs. When Bigorne found himself finally

the sole survivor with a heavy German counter-attack preparing a few dozen yards in front of him he gathered together the machine gun belts of his dead comrades. Altogether he found himself in possession of about 1,000 cartridges.

Adjusting his gun and placing the cartridge belts near where he would be able to feed them in himself, he waited until the first Germans were close in before opening his deadly fire. The Germans began falling. First one by one. Then as they crowded to the attack, by fives, then by twenties and fifties. Bigorne never wasted a shot. Yet, as the Germans went down by the score, still other leaped up in their places. In the end Bigorne found himself with a last cartridge belt and a whole column of Germans still swarming to the assault. He fed the belt in and then took a last, long sweep across the entire front of the approaching Germans. It was his last cartridge but it proved sufficient for under his deadly aim, the entire column broke and dashed back to its trench.

For two hours Bigorne continued in his position, waiting to see what the Germans would do. Finally, he was relieved before another attack was launched, and on being conducted to the rear he was greeted by his general who announced that he was to be recommended for the Legion of Honor.

GRASS FIRE NOTICE

Ordinance No. 752 of the ordinances of the City of Grants Pass, relating to the cutting and destruction of grass, notice whereof has recently been published in the columns of this paper, among other things provides that if the property owner or person in possession thereof elects to burn the grass upon any premises such burning shall be done upon notice previously given to the chief of the fire department personally, and at such time and in such manner as he shall prescribe and under his supervision, and not otherwise. The observance hereof is necessary for the protection of property, and the ordinance provides a penalty for failure to comply.

A. K. CASS,
Fire Chief.

IRRITABLE NERVOUS

Was Condition of Indiana Lady Before Beginning to Take Card-u-i, the Woman's Tonic.

Kokomo, Ind.—Mrs. H. Hankeleier, of this town, says: "I look so well, and am so well, that it does not seem as if I ever needed Cardui. But I was not always this way. I think I have taken a dozen bottles... before my little girl came."

"I was feeling dreadfully bad, had headache, backache, sick at my stomach, no energy... I was very irritable, too, and nervous."

"Since that I have never taken Cardui at all... It has done me good, and I know it will help others, if they will only try it."

"Many women have written grateful letters like the above, telling of the good that Cardui has done them. Why should it not help you, too? If you suffer from any of the ailments so common to women, and feel the need of a safe, reliable, strengthening tonic, we urge you to begin today and give Cardui a fair trial. Your dealer sells Card-u-i. EB 10
