It was like this; though Tom is not usually an easy mark. Tom was first man up for the Presbyterians in the second inning; one of Bratton's fanor in-shoots caromed off the back of Tom's been as he dudted, as Tom. in-sheets caromed off the back of first base; he want all the way day, July 6, between the Baptists and to the next game will be played Pri-to third on Arthur Cramer's single; while Carner and Dick Cramer were striking out, Tom worked hard off our national holidey. third with no chance to score. Madagascar's Two Climates show the true worth of a Rebekah The island of Madagascar has two distinct climates, two classes of na tives and two classes of fauns and ford. The island is about the size of France. Along the coast it is tropical and malarious, and the natives are darker than in the interior. The Interior is a high tableland and mountainous. There the climate is cooler
