Weather tomorrow: Warm, fair.

LOOK ABOUT

The day of free government land is practically past. There are a few scattered areas in Montana, Washington and Oregon remaining in the federal government's ownership but it is of such character that, for the most part, home seekers are not attracted by it.

The young men of the east may follow Horace Greeley's advice and "go west" but if he wants a farm he must be prepared to pay for it.

The great English statesman, W. E. Gladstone, expressed the opinion that the constitutional institutions of the United States would not meet a real test until after the period during which public land was open to the settler.

Attached to the French flyer's machine gun is a camera—a repeating camera. A pull of the trigger on the gun operates the picture machine. The novel idea of procuring war pictures is believed to be Guynemer's own.

The opportunities offered by free land are offered in another form by the rapid increase in knowledge of how to make the land now under cultivation produce twice and thrice what it did formerly.

Intensive agricultural methods in some sections of Italy, Holland and Belgium where more produce is made to grow on an acre of poor land than is produced on the average 10-acre tract of the United States points to a solution of the "no more free land" problem in America.

The opportunities are before us on every hand; mineral development, irrigation, fertilization, better methods of cultivation; crop rotation, safe-

vage of waste, all go to make up a total of opportunity that will bring Oregon to a condition as far advanced to what it now is as the present day conditions excel those of the Oregon pioneer.

Let Greeley's admonition "Go west, young man," give way to the slogan "rouse your lethargy" and economic conditions will solve themselves for decades to come.

MACKENSEN LEADS AGAINST RUSSIANS

Geneva, Aug. 10.—Field Marshal von Mackensen's Austro-German forces in the Roumanian province of Moldavia are fighting desperately to drive the Russo-Roumanians back to the river Sereth, said a Vienna dispatch today.

This fighting centers in the zone where von Mackensen launched his recent counter offensive, between Fokshani and Marasheati. The Teutons have managed to cut the railway between those two towns and are now trying to advance on Tekuchiu. First, however, they must drive the Russians and Roumanians across the Sereth and then win a crossing for themselves.

AVIATOR TAKES PHOTO WITH EVERY GUN SHOT

Paris, July 25.—(By mail)—Probably the most marvelous collection of war aviation photographs in the world are in possession of Captain Guynemer, the noted French flying champion, who takes a photograph every time he shoots at a Boche airman.

The novel idea of procuring war pictures is believed to be Guynemer's own. But it has proved such a great success that every fighting machine in the Lafayette Escadrille will be likewise equipped. The photos will undoubtedly some day make their appearance in America.

J. J. Powers, of Grants Pass, will buy all kinds of JUNK, old automobiles, machinery, hides, feathers, wool, furs, old rubber.

SUBMARINES AFTER ONLY LARGE BOATS

London, Aug. 10.—That German submarines are now devoting practically all their attention to big steamships to the exclusion of fishing boats and trawlers was the conclusion drawn in maritime circles today from the fact that no small craft was sunk during the past week.

The official statement of the admiralty, announcing that 31 British ships of more than 1,000 tons and two of less than that size were sent down during the past week, showed an increase of two vessels over the preceding week.

NOW KANSAS CITY IS TIED TIGHT IN STRIKE

Kansas City, Mo., Aug. 10.—Since 4 o'clock yesterday afternoon the Kansas City Railways company has been unable to move a single street-car, over its lines, owing to a strike called early yesterday morning by their conductors and motormen.

What few men remained loyal to day refused to take their cars from the barns fearing violence at the hands of the strikers. Reports of strikebreakers from Chicago being on their way here were denied by company officials.

BUELOW HAD SECRET PASSAGE INTO HOME

Rome, Aug. 10.—A secret submarine passage has been discovered between Hotel Eden, which up to Italy's entrance in the war was under German ownership, and the Villa Roger, formerly occupied by Prince von Buelow, the former German imperial chancellor.

It is believed that the passage was used to enable certain persons to visit the prince secretly.

JUDGE DOOLING HURT ASHLAND AUTO SMASH

Ashland, Aug. 10.—Federal Judge Maurice Dooling, of San Francisco is in Granite City hospital suffering from a broken wrist and nose, and severe bruises inflicted in an auto wreck on the Pacific highway, five miles southeast of Ashland Wednesday afternoon.

RED CROSS TO HAVE ITS OWN TRANSPORTS

Washington, Aug. 10.—As a part of the organization which the American Red Cross is building for relief work in France, a fleet of motor transports is being formed at the request of Major Grayson M-P Murphy, who is in charge of Red Cross work in France.

The first unit of trucks is now being forwarded. It is hoped eventually to organize such an efficient and well equipped transport service that the Red Cross supplies may be carried without delay to any point needed, and without placing any additional burden upon the already overburdened railroads of France.

BOARD TO ADJUST LABOR DISPUTES

Washington, Aug. 10.—The council of national defense determined today upon the creation of a labor adjustment commission to have final jurisdiction during the war over labor disputes in factories taking contract with the government.

It is proposed to give the commission powers by awarding contracts only to those who will agree to abide by its findings and require pledges of their employes to do so. Members of the commission have not yet been selected. There will be nine of them, three representing the government, three representing employes and three representing labor.

DARE-DEVIL AERIALIST WILL APPEAR TWICE DAILY WITH BAND CARNIVAL HERE NEXT WEEK

Famous for fun. Only to amuse. Lots of joy. Everything that is entertaining. Youngster's delight. They want to please you. Biggest and best in the west. Unique attractions. Religiously clean. Kings of the carnival field. Nobody Loves This Man. The greatest aerialist of them all will be here next week with the Foley & Burk shows. He appears every afternoon and evening during the engagement. The feats he performs are sensational. If you long to be thrilled, step out and see him. If he does not make your hair "stand on end," the conclusion can rightly be drawn, you are beyond the stage of being frightened. You can without fear of being alarmed take a vacation trip to the trenches. See "Beno" all next week at the band carnival and while you watch the performance remember that he is the man whose life cannot be insured.

Aluminum Powder. To make aluminum powder very thin feel is first cut up into small shavings. These are ground in a mill and the powder is then sifted through bolting cloth. The powder is used as a basis for metallic paint and is especially valuable for metallic surfaces that are exposed to a great deal. The powder is very soft and adhesive, like graphite. The Olive Tree. The olive tree is more closely associated with the history and civilization of man than any other. It is the earliest mentioned by name—when the waters of the flood began to retire (Genesis VIII, 11). It is the most prominent tree in the earliest allegory (Judges IX, 8, 9). With David it is the emblem of prosperity and the divine blessing (Psalms III, 8; cxxviii, 8).

Grants Pass Band Carnival Aug. 14 to 18 inclusive FOLEY & BURK COMBINED SHOWS Presenting more new and exclusive features—more high class and world famed specialties—more sensational and fascinating free acts, more unique, bewildering and extravagant exhibitions than all other shows combined. "FEARLESS BENO" Wizard of the air, feature free attraction. Foley & Burk's dog and pony circus presenting "Trixie," the most wonderful horse in the world; "The Borneo Family," Newlyweds and Snookums; Loreta, strangest girl alive; the celebrated Blamess twins; Monkeyville, most wonderful animal show to ever tour the northwest; big circus side show; a gigantic aggregation of world's wonders; latest sensational ride in the submarine U-2; a merry-go-round par excellence and a mammoth Ferris Wheel—many other shows and attractions. Here all next week
