PROPOSAL MADE FOR LOCAL SEED FARM

A letter received by the Chamber of Commerce and referred to its board and also the county agricultural council, is deserving of more than passing attention. It proposes:

"To start a seed farm growing a general line of garden seeds, also taking in the ornamental part and to grow a full line of nursery stock, also ornamentals, specializing on the government blight proof stock which Professor Reimer of the experimental station of Talent has worked out. I am personally acquainted with him and his methods. In fact, I furnished over half of the trees for the first plant at that station.

"The seed business is one of the best things any community can have. This county of Twin Falls, Ida., grows over four millions of dollars worth annually of the larger varieties such as peas, beans, beets, the clovers and potato seeds. These are grown for the large seed firms in the east. I do not mean to go into it on such a large scale. Just grow a general line for the trade, such as all stores handle. Southern Oregon is better adapted to growing seeds and plants than this place, as the season is longer and the winters are too severe here.

"There are big profits to be made in seeds. Some of our largest seed firms have started on one acre of ground. If we could rent ten acres of good land that would do very well for a starter, but it must be so we can irrigate if we need it.

"It will take between ten and twelve hundred dollars to start and carry the business through the first year. This amount need not be paid in all at once. Of course, the more money we have, the better start we can make. I have had over 5 years experience in nursery and seed work. I will refer you to Professor Reimer of the experimental station as to my ability to take charge of a plant of this kind. I would advise you either to see or write him about this proposition.

"I prefer southern Oregon to any other place, as I lived there seven years and understand conditions. This may seem a poor time to start up, but it will take two or three years to get started and by that time, things will be better."

The letter quoted from above was written by a man thoroughly familiar with the seed growing business. Local people will take up with him his suggestions of such a farm in Josephine county.

KERBY

Weather not so warm. Smoke quite dense. Fires seem to be sufficient to keep the atmosphere charged with smoke but they are difficult to locate on account of so much smoke.

Fire wardens are busy, but as fast as one fire is under control another is heard of and it seems impossible to get them all under control.

The following Kerbyites have visited Grants Pass during the past week: David, Ayers, "Barney" Payne, Quincy Woodcock, J. O. Turner, Mrs. Turner, Misses Fleeta Turner, Vera Turner, Ida Maurer, Ethel Woodcock, Miss Vaabinder, Mrs. Bert Adams, and Miss Ilene Lewis.

Dr. Van Fossen, district superintendent of the M. E. church for this district, passed through Kerby on Saturday last and held the quarterly conference of the church at Alt-house.

Rev. Crenshaw accompanied Dr. Van Fossen with his auto and the regular quarterly meeting services were observed on Sunday at Alt-house.

Miss Lucy George, who has been with her parents for several weeks, expects to return soon to her work in the Portland schools, where she has been employed for several successive years.

Miss Ethel Woodcock will start in about a week for her winter's work at Raymond, Wash.

Miss Vaabinder has returned to Holland for the winter, and will teach the same school where she has worked for several years.

The Kerby school has the same teaching force as last year.

J. Q. Willis and Mrs. Floyd filling the same positions as during the last three years and Miss Geneva Robinson the same position as last year. School will open on Tuesday, September 4.

CHICHESTER'S PILLS

The word "Slave." The word "slave" is a word of brilliant historical antecedents. Its original, the Russian "slava," means glory and is the title of that race which includes the Russian people. But when the Germans reduced hosts of the Slavs to servitude their name, from malice or accident, as Gibbon says, became synonymous with "servile."

How it Happened.
"Why did you leave your last place?" asked the boss.
"I didn't leave it. It left me."
"Rather strange. I should say."
"Not at all. I worked in an ammunition factory."—Indianapolis Star.

A Grab.
"They say that what we eat makes us what we are."
"Then old Fludub must have lived upon a steady diet of crab meat all his life."—Louisville Courier-Journal.

True politeness is perfect ease and freedom. It simply consists in treating others just as you love to be treated yourself.

Contentment.
Contentment is the sweet satisfaction of knowing that you have more of this world's goods than you can possibly use.—Pack.

Pain

Here is a message to suffering women, from Mrs. Kathryn Edwards, of R. F. D. 4, Washington Court House, Ohio. "I am glad to tell, and have told many women, what I suffered before I knew of Cardul and the great benefit to be derived from this remedy. A few years ago I became practically helpless..."

TAKE Card-u-i The Woman's Tonic

"I was very weak," Mrs. Edwards goes on to say, "and could not stoop without suffering great pain... Nothing seemed to help me until I heard of Cardul and began the use of it... I gradually gained my strength... I am now able to do all my work." If you need a tonic take Cardul. It is for women. It acts gently and reliably and will probably help you as it helped this lady.
