HARDWICK'S FOLLY

Senator Hardwick introduced a resolution into the United States senate which purported to recognize the need of this country's raising a new army...

How a man of such diminutive mentality ever managed to get into the United States senate is one of the perplexing anomalies of American politics.

As a matter of fact, American troops will be fighting America's cause and for the protection of American institutions on the soil of bleeding France quite as much as though the conflict were on this side of the water.

A DANGER

A fire alarm came into the fire department's headquarters shortly after 8 o'clock last night.

Fortunately the fire proved to be of little importance, but had it been a dangerous one, the difference between the delay caused by the freight train blocking both streets across the S. P. tracks would have made the difference between saving and losing a building.

We all know that the Southern Pacific must operate freight trains on its tracks and that such operations cannot be carried on without the crossing being blocked once in a while...

The people of Grants Pass might as well make up their minds first as last that they are suffering under an unnecessary and, at times, dangerous inconvenience in this regard.

GAME WARDEN JEWELL GETS INSTRUCTIONS

L. L. Jewell, deputy game warden, has just received a notice from the Oregon Fish and Game commission concerning the protection of deer from dogs.

"Section 13. (a) No person or persons shall make use of a dog in hunting, pursuing or killing any of the game animals of the state of Oregon.

"(b). Any free-running dog or dogs running at large in territory inhabited by deer or found following upon the track of any game animal of the state, or any free-running dog or dogs running at large in any of the fields of the state after the owner has been duly notified in writing by any game warden or other officer entrusted with the enforcement of the game laws of this state, and if the reputed owner disclaims ownership of the said dog or dogs, the same may be declared a public nuisance and may be killed at such time by any game warden or other person entrusted with the enforcement of the game laws without criminal or civil liability.

"(c). It shall be unlawful for any person to watch or lie in wait upon or near any dry or wet stands, licks, trails or runways, creeks, rivers or lakes of the state of Oregon that deer are accustomed to use or at any time when pursued by dog or dogs with intent to take, kill, injure or destroy any such deer."

Penalty for a violation of this law is not less than \$25 nor more than \$500 and costs of the suit or action, or by imprisonment, or both such fine and imprisonment.

WRITING TO GERMANY THROUGH RED CROSS

As one of several indications of the responsibilities being loaded upon the American Red Cross, is noted in the news dispatch that the state department has requested this organization to take over the work of answering all inquiries by Americans at home concerning the welfare and whereabouts of persons in the countries of the central powers.

Persons wishing to make such inquiries may communicate with the bureau of communications, American Red Cross, Washington, D. C. Proper inquiries will be forwarded to the International Red Cross at Geneva and from there sent to the person intended. Answers will be returned by the same route.

The same service will be rendered for those persons now within the territory of the central powers who wish to communicate with individuals in the United States.

DRILL MASTER LEADS TROOPS ON FIRE HUNT

Circumstances alter cases.

While the Boy Scouts were busily drilling in front of the Central school last evening, a fire alarm was sounded and the department was heard to rush out of their quarters at the city hall.

A freight train across Fourth street blocked the passage of the hose cart and some of the boys imagined they heard the department hurrying down Sixth street to get across.

Courier Bargain Day

SEPTEMBER 18

The above announcement means money saving to hundreds of Daily Courier subscribers, for Courier Bargain Day has become an institution and an increasing number take advantage of it from year to year.

Courier Bargain Day occurs on September 18, the Anniversary of the establishment of the Daily issue of the Courier. On that day, and that day only, the price for one year's subscription is reduced to

FOUR FIFTY

Strictly in advance. Present subscribers may take advantage of this opportunity to save money if their subscription is paid to at least September 1; others may secure this privilege by paying all arrearages at the regular rates.

These rules are held strictly, and no subscription will be received at the \$4.50 rate after the 18th unless sent by letter, the postmark bearing the date of the 18th.

To accommodate those who can not rely on their own memory, we will accept checks now, but they will not be cashed nor receipts issued until the 18th, although subscriptions may start at any time.

\$6 per year 50c per month Bargain Day Saves you \$1.50 Saves you 25%

On previous years \$4 was the rate. The increase in price is made necessary on account of the increase in cost of production, the white paper alone costing 70 cents per year for each subscriber more than in previous years.

Last year dozens were disappointed, owing to forgetfulness, and were obliged to pay the regular price. This year they will remember, but others may forget. If you forget, it costs you money.
