Flags Up Again—
The Chamber of Commerce today made its third effort to display the flags of the United States, Great Britain and France across Sixth street at the railroad crossing, so that they would not wind themselves around the wire from which they are suspended. The second attempt, by weighting the flags, was not a success because of the heavy winds. This time the flags have slats stretched lengthwise which it is believed will keep them where they belong. The Chamber is indebted to Miss Parsons and the California and Oregon Power company for making the change.

KLAMATH STOCKMAN BUYS LOCAL RANCH

During the past week A. N. Parsons sold the Wm. Haberman 200-acre ranch on the Applegate, to H. E. Duncan, of Klamath county, together with all of this year's crop, and all stock and implements.

Mr. Duncan is one of the successful stock ranchers east of the mountains, but decided to locate in the Rogue river valley, realizing that with a good irrigated alfalfa ranch here he can accomplish fully as much, with dairy or range stock, as east of the mountains, and at the same time enjoy "the best all-year climate in America." With his family he will move here in the near future.
