NATIONAL PAY-UP WEEK

OCT. 29 TO
NOV. 3-17

THE POWER OF A MOVING DOLLAR

We always say, "money makes the wheels go 'round,'" and we usually think it takes a great deal of money. Let's unload during National Pay-Up week. Let's start the lazy dollar going. Men of every calling in life all over the United States, farmers, doctors, lawyers, merchants, bankers, working men, are attracted by the possibility of National Pay-Up week because it is not a bad debt collection device but a plan which results in the payment of good debts. Do you know which dollar it is that makes the trouble for business? It is the dollar that is as good as "old what the hell" but which does not move when it is most needed. It is the dollar that they could easily pay but simply neglect to pay that cause the trouble. It is not the account that worries you or any other man. National Pay-Up week publicity focuses the attention of careless folks on the subject of payment and gets them to realize that those few dollars that they owe to local people have an enormous number of idle brothers, sisters, uncles, aunts, nieces, nephews, cousins, and other near and dear in business a polite means of letting every other man know that he is indebted to him and that small favors are appreciated. All good people will take the hint and act upon it.

Pay-Up week comes in the time of year when business needs just a little added impulse to make it go faster than it ever did before. National Pay-Up week gives every man a polite means of letting every other man know that he is indebted to him and that small favors are appreciated. All good people will take the hint and act upon it.
