Dec. 1, Saturday—Red Cross and Y. M. C. A. day at Ladies Auxiliary meeting.

**Horse Markings.**

Among horses, distinctive of the question of breed, white is much more commonly seen on the hind legs or on one of them than on the fore legs. And when the latter are white it is practically always true that you will find white on the hind legs too. When markings are present both behind and in front those on the hind limbs are usually the more extensive.

Calling cards at the Courier.

**ATTACH TELEPHONE TO THE WIRELESS SYSTEM**

Tokio, Nov. 24.—The invention of a successful method of attaching the ordinary telephone to any wireless telegraph system is announced by Messrs. Tonegawa and Torigata, wireless experts of the department of communications. The trial tests were conducted in the presence of the vice-minister of communications.

who has since affirmed the practical character of the invention.
