- (1) perfect in mellowness, since the leaf is cured an average of eighteen months before using.
- (2) flavor "insured" by a million dollars' worth of reserve tobacco in a way unique in a five-cent cigar.
- (3) correct in burning, because hand-made in the correct square-end shape.

Could a manufacturer do more to guarantee you a smooth, satisfying smoke for your nickel?

KERBY

A letter from Wes Woodcock, who is now in the service in France, written to his mother some two or three weeks ago, reports that he is well and having an interesting experience. He reports seeing a thresher at work, and being a threshing machine man, improved the opportunity of feeding the machine. But a few straws at a time was too slow for Wes, and he soon choked the thresher.

Mr. and Mrs. Ben George were down from Takilma one day last week.

Mr. and Mrs. John Bellinger, of Medford, arrived Monday evening and remained until Wednesday morning, visiting the family of J. Q. Willits, who were formerly neighbors of the Bellingers at Medford.

Mrs. J. O. Turner, who has been in Grants Pass for nearly a month under the care of a physician has returned home.

Mrs. Fred Hart and Mrs. Hazel Payne returned, after a month's visit at Albany.

The fifteen leading counties have an average of 37 per cent.

The good was applied vigorously all over Portland yesterday to the different committees and that was responsible in large measure for the much improved showing, there being a leap of over 6,000 on the day's report.
