A Most Curious Freak of Nature is the Vegetable Caterpillar. Among the many strange growths, apparently freaks of nature, which are to be found in New Zealand the vegetable caterpillar readily ranks among the foremost.

By the Light of the Moon.

The phrase "the light of the moon" is an indefinite one, not used by scientists and used by others in a mistaken and misleading sense.

PERFECTED AIR BARRAGE BY ANTI-AIRCRAFT GUN IS BOMB MAN'S MOST DREADED ENEMY

Somewhere in France, Dec. 19.—(Correspondence of the Associated Press)—The anti-aircraft barrage is today the most dreaded enemy weapon which the airman has to face in his flights over the lines.

Next to the barrage, the most feared of the ground defenses is the "cluster." This is a group of six anti-aircraft shells, sent up together, and placed just ahead of the machine, with one shell aimed to burst the tip of the fuselage, two on each side of it, two on each side just ahead, and one further and directly ahead.

COURSE OF A RIFLE BALL.

Just What Happens From the Instant the Gun is Fired. Two sportsmen were disputing. One claimed that if a rifle is sighted on a dead level the ball commences to fall the instant it leaves the barrel.
