

The Typewriter That Completes the Modern Business Organization.

The Royal Typewriter is necessary to make a big business organization complete. It was invented and is designed and built to meet the typewriter needs of the business world today.

It is the finishing touch to that office efficiency which the aggressive business organization must have.

It fits exactly into the high standard of organization, of personnel and of equipment that the live business house must maintain.

It rounds out the effectiveness, the sureness, the exactness, the specialized ability of the organization.

It ends excessive repairs, because it is built for long life and for the finest work. It is bought with the confident knowledge that it will not have to be "traded-out" after one or two years of use.

And this very quality of excellence is what makes the work done on the ROYAL stand alone as an exhibit of superiority. The precise harmony of all moving parts, the swift and sure mechanical response, the perfect presswork—all these enable the typist to do more work, to do it better—and to do it with less effort.

Compare the work. Get the facts. Know the ROYAL. Put it to the deciding test of actual results in your own office, under your own working conditions. The user of but one ROYAL enjoys the same advantage as the organization which requires a hundred and more.

Telephone or write us now, and a representative will call. A demonstration does not place you under the slightest obligation. Let the ROYAL prove itself to you and for you. Then come to your own conclusion.

ROYAL TYPEWRITER COMPANY, INC.

His Opinion. Doctor Eaton, a former president of Madison university, was beloved by the students. One day a student who had spoken in debate asked him what he thought of the effort. The doctor looked at him and then said slowly, "Edward, if you would pluck a few feathers from the wings of your imagination and stick them in the tail of your judgment, you would make better speeches."—Christian Register.
