45 GERMAN DEAD PICKED UP BY AMERICAN TROOPS

With the American Army in France, Mar. 5.—More than 45 German dead—all of whom had been killed in the German attack against the American salient northwest of Yout on Friday morning—were counted in the American entanglements and in "No Man's Land" today.

The Germans had been shot down while returning to their own lines, after being routed by the American soldiers.

German parties tried to approach to carry off the corpses but were driven off by machine gun fire.

One German had been bayoneted to death, but the American who killed him evidently was killed himself as none of the men alive claim to have done it.

Another German had been killed by a hand grenade. The balance had been slain with rifles or automatic pistols.

GERMANS TORPEDO AMERICAN STEAMER

An Atlantic Port, Mar. 6.—The American steamship Armenia, formerly a German merchantman, has badly damaged on the British coast, after being torpedoed. The crew arrived today.

Canton a City of Canals.

At Canton, the oldest city in southern China, the river is, in effect, canalized, and the shipping is heavy and varied. The water is deep enough for ships of 1,000 tons burden as far as the city, but foreign boats come up only as far as Whampoa, nine miles to the southeast, where there are extensive docks. Here the loading and unloading is done by native boats. Vessels of deep draft lie outside the bar. Forty miles below is the Boca Tigris (Mouth of the Tiger), and the water widens into a wide estuary. Water divides the old from the new town and surrounds the island and the suburbs, where the Europeans live, so that Canton has an abundance of picturesque water life, including a big houseboat population.

Useful Tree.

An American tree, known as the shea, or butter tree, is beginning to attract commercial attention. It supplies not only nuts, but also butter that may become an article of commercial importance. It is already exported to Europe, where makers of artificial butter find use for it.

Almost two-thirds of the nut is vegetable butter. The tree begins to bear when it is fifteen years old and reaches its prime in twenty-five years. Chocolate manufacturers could easily utilize the product. It might also be of use in making candles and soap.

NEW SIBERIAN REPUBLIC ORGANIZED AT IRKUTSK

Vologda, Russia, Sunday, Mar. 3.—A new Siberian council of the workmen and soldiers' republic at Irkutsk, which has determined not to recognize any imperialistic German peace, has organized a council of national Siberian commissioners composed of 11 members of the Bolsheviks and four Left Social revolutionaries. The president of the council is M. Shoksky and the minister of foreign affairs, M. Weinbaum. A Siberian central executive committee to act as an independent legislative body also has been formed.

NORTHWEST TROOPS WILL FIGHT TOGETHER IN FRANCE

Washington, Mar. 6.—Troops from the northwest at American Lake will go to the front as a division. Personal assurance to this effect was given Senator McNary today by Adjutant General McCain. A report had reached Senator McNary that the Pacific coast men would be used for replacement to fill gaps caused by losses and so become widely scattered and lose their state identity. This plan, it is believed, was under consideration, but General McCain agreed this would be unfortunate in view of all the circumstances, the American Lake troops being considered among the best units anywhere in camp.

RAILROAD SITUATION IS "ACTIVELY BEFORE US"

The fact that the C. & O. C. railroad situation is not a back number and relegated to the chamber of past dreams is evidenced by the following telegram which was received today by Mayor Demaray. "Washington, D. C., Mar. 6.—C. H. Demaray, Grants Pass, Oregon—Thanks for your message. Have conferred with Mr. Lea as suggested. The railroad situation generally is actively before us and having preferred attention at the hands of Judge Twoby and myself. (Signed) R. B. Miller."

MEDFORD TO VOTE ON BONDING PLAN

Medford, Mar. 5.—In answer to initiative petitions presented at last night's council meeting, signed by the required percentage of legal voters, a resolution was passed calling for a special city election April 3, when the so-called deferred payment plan will be voted upon.

This new plan is one which has been drawn up in conformity with the recent supreme court decision, which knocked out the Hanson plan, and has been approved by John C. Thompson, a New York attorney recognized as an expert in such matters. The new plan requires only interest payments the first three years, and is generally designed to put the minimum burden upon the property owners of the city at the present time.
