If you have anything to sell try a classified ad.

HUNDREDS OF CHILDREN ENJOY EASTER EGG HUNT

The second annual egg hunt given at Riverside park Saturday afternoon under the auspices of the Parent-Teacher association was a decided success. More than 400 children were scattered over the park earnestly searching for the colored eggs which had been previously hidden, and there were many parents present enjoying the sport of the youngsters. A separate hunting ground was provided for the smaller children. The weather was ideal, and the perfect order kept through the work of the Girl Scouts and the Boy Scouts was marked. These organizations guided by Scoutmaster Reynolds and Guardian Mrs. Truax had charge of the hiding of 100 dozen eggs, and after the work was finished they enjoyed a picnic lunch. The Parent-Teacher association is appreciative of the work of those who made the hunt a success and to those who supplied the eggs. The eggs were dyed in such a manner as to keep them fit for food.

WAR GARDENS TO COVER 400 ACRES

The war garden committee which made a canvass of Grants Pass last week report that there will be more than 400 gardens put in this summer. The public is urged to raise more vegetables and let vegetables form a larger part of their diet during the summer, canning the surplus for winter use. Anyone wishing ground for the putting in of garden can be supplied by application to Mrs. Riddle at the Rogue River Hardware store. County Agent Thompson was requested to make all effort possible to establish industrial gardens and canning clubs. W. D. Fry was requested to make a canvass of all business houses and "sound" the business men on the 5 o'clock closing proposition for the summer, thereby releasing a large number of people for war garden work. There will be a "drive" put on in the interest of home canning in the near future.

COMING EVENTS May 17, Friday—Primary nominating election. April 1, Monday—All Fools party, given by Presbyterian ladies at the E. T. Ludden home. MEE—To Mr. and Mrs. Warren Mee of Thompson Creek, Saturday, March 30, a son.

FIT TRIBUTE TO WASHINGTON Shaft at National Capital is One of the Most Remarkable Ever Built by Man.

The foundation of the great shaft of the Washington monument is 80 feet square and is set in solid rock eight feet below the surface of the earth. The interior is only 25 feet in diameter, while the exterior diameter is 55 feet. This shows the tremendous thickness of the walls, which are made of perfectly fitted stones. No wonder that this obelisk has been called "the best piece of masonry in the world." Many nations, as well as many cities and states, wished to contribute to this great cenotaph, and as the visitor enters the monument and takes his place in the big elevator, he may see, as he slowly mounts, various interesting stones from all parts of the world. He may catch a glimpse of a stone from "Braddock's field," one from the "battlefield of Long Island," one from the Alexandrian library in Egypt, one from the tomb of Napoleon at St. Helena, a mosaic block from the ruins of Carthage, lava from Vesuvius and stones from Jerusalem and Mecca, besides blocks contributed by 40 states, 16 cities and towns and 44 societies. Ten foreign countries sent blocks of stone, suitably inscribed, to testify to their regard.—Mary V. Worstell in St. Nicholas.

It Pays to Paint Painting your buildings will immediately increase their values many times the amount of your investment in paint. Neglect to paint means loss by deterioration and decay. Lumber and repairs are more expensive now than ever before. Protect your property from depreciation by painting with ACME QUALITY House Paint It gives great durability and lasting beauty. It is most economical to use, because it takes less and lasts longer. Let us show you suitable color combinations for your house and estimate the amount of paint required, whether you buy or not.
