RIM OF CRATER LAKE HAS 10 FEET OF SNOW

Klamath Falls, Mar. 30.—A total depth of snow of seven feet at headquarters camp and about ten feet at the rim of Crater lake is reported by H. E. Momyer, assistant superintendent, who came down last night for a short time after several records and attending to government routine duty.

The depth of snow at this time is

not much more than half of the corresponding date last year, according to Mr. Momyer, and there is now every reason to believe that the park will be open to visitors at a much earlier season this summer than for the two years preceding. The month of March has been a snowy month, Mr. Momyer declares.

To Make Your Shoes Last.

When your shoe leather gets dry or hard, you should oil or grease it, says the popular Science Monthly. To do this, first brush off all mud and then wash the shoe in warm water, drying it with a soft cloth.

While the shoe is still wet, apply the oil or grease, rubbing it in with a swab of wool, or better still, with the palm of the hand. After treatment, the shoes should be left to dry in a warm but not in a hot place. Castor oil is recommended for shoes that are to be polished. For plainer footgear, fish oil and oleine or any one of the less expensive oils may be substituted with very good results.

HEED LAST CRY OF STARVING ARMENIAN

I have just received a letter from Ben Selling of Portland, state treasurer of the Armenian fund for Oregon, who is giving \$100 per month, and three hours each day of his time to this cause of raising money for these starving Armenians.

He says, "Do not let Josephine county fall behind her apportionment, \$2,000, on this most important of all drives, that of saving the lives of those people who are standing between us and barbarism, suffering awful persecutions at this time, instigated by the Germans." President Wilson appeals to you for aid. Our state organization asks you to do your best and the outstretched hands of the emaciated starving women and children of Armenia cry for "bread, bread."

If there were one or two thousand of these dying children lying around our streets, how quickly and generously would every one give, that they might be saved. The fact is just the same, and they should be helped although they live outside our state.

An appeal has been sent to each school district in the county. The city of Grants Pass has been divided into districts and sollicitors will visit each home next Tuesday, April 2. It is hoped that they will receive a kind reception and generous contribution. Let the children also have a share in saving these little starving tots.

On Monday evening, April 1, all the sollicitors must meet at the residence of N. E. Townsend, 621 A street at 7:30 to receive the receipt books, literature and final instructions. It is hoped that no one will fail to do their part in the work and in giving so far as possible.

What They Asked Him.

There is one man in town who is tired of hearing the name of a small car of popular make. His name is L. G. (Baron) Rothschild. It all happened like this: On Monday morning the baron, in his haste to get to the Jewett inauguration, as some say, slipped on the sidewalk and broke a bone in his wrist and tore loose two ligaments in his right hand. He has since been carrying the hand around in a plaster cast. Since then, whether in the club or on the street, nine acquaintances out of ten asked him the question, "Were you cranking a—" (name deleted to avoid giving free advertising).—Indianapolis News
