

Correct Lubrication for the Valve-in-Head-Type Motor

The Valve-in-head-type engine illustrated here, like all internal combustion engines, requires an oil that holds its lubricating qualities at cylinder heat, burns clean in the combustion chambers and goes out with exhaust. Zerolene fills these requirements perfectly, because it is correctly refined from selected California asphalt-base crude

# ZEROLENE

The Standard Oil for Motor Cars

## It Keeps the Engine Young!

Experts agree in recommending ZEROLENE because it keeps the engine young—full-powered, smooth-running, and economical in fuel and oil consumption.

The majority of motorists are now using ZEROLENE, because they have learned by experience that there is no better oil to be had.

Correctly refined from selected California asphalt-base crude, ZEROLENE gives perfect lubrication with less wear and less carbon deposit. Less wear because ZEROLENE keeps its lubricating body at cylinder heat. Less carbon because, being made from asphalt-base crude, it burns clean and goes out with exhaust.

ZEROLENE is the correct oil for all types of automobile engines. It is the correct oil for your automobile. Get our lubrication chart showing the correct consistency for your car.

## FRENCH ARE HALTING CROWN PRINCE ARMY

New York, May 31.—The following a summary of the latest war news furnished by the Associated Press.

Slowly, but surely, the plunge of the German crown prince's armies is being halted by the French and British armies. While the momentum of the German masses has not as yet spent itself, there has been a notable slackening in its advance during the past day. The chief efforts of the Germans now seem to be devoted to the widening of the gap they have torn in the positions of the allies between Pinon and Brimout. This work seems to be proceeding slowly against the desperate resistance of the allied forces.

The French here are fighting on familiar ground, which has been made historic by numerous battles, some of which are named among the decisive combats of history.

The French having fallen back from the limits of the city of Soissons have stood their ground against the attacks of the enemy and the German official statement fails to show material advances there during the day's fighting.

On the eastern end of the fighting line some of the forts before Rheims are said to have fallen, which was to be expected from the fact that they have been outflanked by tide of invasion that has swept far to the south of the city.

The fighting has taken on the familiar aspect of the first invasion of France in 1914, the advance of von

Mackensen along the Dunajec and the fighting in Picardy in March. After breaking the French and British defensive position, but not breaking the allied line, the Germans are again moving their forces out in a fan-shaped figure, fighting hard on the flanks of the extreme front of their advance.

The situation, while apparently extremely serious, has not assumed the critical aspect of the fighting late in March. The allies are resisting the enemy's attacks stubbornly, giving ground when overpowered and always maintaining a solid front.

The wave of the advance is now approaching the valley of the Marne, the nearest approach to that avenue toward Paris being at the village of Vezilly, which lies at the extreme apex of the German wedge and is about seven miles from the river.

The reserve forces at the command of General Foch are now coming into action on ground chosen for the combat by that master strategist, and it is possible that a blow of tremendous proportions may be struck somewhere along the front of the German wave or on its western side, which might crumple up the German armies to the east of Soissons.

## AMERICAN AVIATOR WINGS HUN PLANE

Washington, May 31.—Admiral Sims reports the sinking of the American transport President Lincoln, at 10 o'clock today, on its return from Europe to the United States. No mention was made of casualties.

SOLD BY DRUGGISTS EVERYWHERE

## MARCH TO VICTORY

Courage is a matter of the blood. Without good red blood a man has a weak heart and poor nerves.

In the spring is the best time to take stock of one's condition. If the blood is thin and watery, face pale or pimply, generally weak, tired and listless, one should take a spring tonic. One that will do the spring house-cleaning, an old-fashioned herbal remedy that was used by everybody nearly 50 years ago is still safe and sane because it contains no alcohol or narcotic. It is made up of Blood root, Golden Seal root, Oregon Grape root, Queen's root, Stone root, Black Cherry bark—extracted with glycerine and made into liquid or tablets. This blood tonic was first put out by Dr. Pierce in ready-to-use form and since then has been sold by million bottles as Dr. Pierce's Golden Medical Discovery. If druggists do not keep this in tablet form, send 60 cents for a vial to Dr. Pierce's, Invalids' Hotel, Buffalo, N. Y.

Kidney disease carries away a large percentage of our people. What is to be done? The answer is easy. Eat less meat, eat coarse, plain food, with plenty of vegetables, drink plenty of water between meals, and take an uric acid solvent after meals for a while, such as Anuric (double strength), obtainable at almost any drug store. It was first discovered by Dr. Pierce. Most every one troubled with uric acid finds that Anuric dissolves the uric acid as hot water does sugar. You can obtain a trial package by sending ten cents to Doctor Pierce's Invalids' Hotel and Surgical Institute in Buffalo, N. Y.
