Slow Freight—

Years ago slow freight was the subject of many jokes, and became a byword. Present conditions however, have the old time schedules backed off the time table. The Courier cylinder press rolls damaged by the fire of June 25, probably hold the record. The roller cores were shipped to Portland by express, leaving here June 25. They were delivered in Portland six days later. They were shipped from Portland by freight July 3, and arrived in Grants Pass 22 days later. The box, correctly labeled was found in the Medford depot where it had been for several weeks.

Red Cross Wants Knitters—

The local Red Cross wishes to put in a plea to every girl and woman in Grants Pass to come to the Red Cross rooms and take yarn for the knitting of socks. They feel that it is one big way in which the women can do their part, and unless more people of Grants Pass come to the rescue and knit the chapter will not be able to do all that the National Red Cross asks, which is only our share of the burden. One thousand four hundred and twenty pairs of socks must be ready by September 1. If 716 women will respond to this call and knit two pairs of socks, the allotment will be filled.

Quick Action.

Quick action has become the byword of commerce. Fortunes have been made and lost and remade in the time the undecided person wavers in his or her decision. But quick decision must not be confounded with jumping impulsively to conclusions. This extreme, which admits of little or no thought at all, is always as bad as the other.

Train your mind to act quickly. Plunge forward or draw backward, but don't stand faltering in the middle, for you stand in danger of being laid low by indecision.
