PREYING ON SOLDIERS' PARIENTS

A shameful practice has come to light with regard to the settlement of the affairs of soldiers dying in the service. In many cases, parents have no sooner learned of their son's death than they receive a notice from some lawyer in Washington, informing them that they will need legal help in collecting the son's back pay, along with liberty bond rebates and other claims on the government.

The captain said his ship was torpedoed without warning and that after he and all his men were afloat in life boats the submarine appeared on the surface and he was taken prisoner, the mates and seamen being permitted to start in the direction of land. Describing the submarine the British captain said:

"She was a fairly large craft, of recent numbering, having three torpedo tubes, two in the bow and one aft, and carried ten torpedoes. She was also armed with a gun for shell fire, just forward of the conning tower."

and down we went. By the micro-phones the propellers could be heard, and as the vessels came nearer and nearer we, in the submarine, could hear the thudding quite distinctly. To and fro the destroyers went searching for us. Evidently they picked up a clue, for there were two explosions ahead but not so near us as that first from the cruiser, but quite close enough to cause the submarine to tremble and then roll about as though in a heavy sea.

Prison camp conditions in Germany were described by the British captain as being deplorable. "Although we were merchant ship captains imprisoned at Brandenber, we were made to suffer various indignities," he said.

"We were compelled to harness ourselves to carts which we had to draw through the streets to the station or postoffice in order to fetch our parcels and any commodities to camp. It was at this camp also that I saw 300 Russian soldiers working, all of whom were in the last stages of tuberculosis. The poor fellows could not get enough to eat, and they would eagerly scrape discarded tin cans in the hope of finding particles of food. I have even seen German soldiers do the same thing. We were glad to search the cinder paths at any opportunity in anticipation of finding bits of coke or coal with which to cook our food.

Stop Lively! Corns Quit with "Gets-It"

The Great Corn-Loosener of the Age Never Fails Painless.

Watch my step! What's the use? I go along "right side up without care," even with corns, because I use "Gets-It," the painless, oil-like-a-hanna-peel corn remover. I tried other ways galore, until I was wise.

Corns Simply Can't Stop Us, We Use "Gets-It"

In the face and red in the toes. No more for me. Use "Gets-It." It never fails. Touch any corn or callus with two drops of "Gets-It," and "Gets-It" does the rest. It's a relief to be able to stop cutting corns, making them bleed, wrapping them up like packages and using sticky tape and salves. It removes any corn clear and clean, leaving the toe as smooth as your palm. You can wear those new shoes without pain, dance and be frisky on your feet. It's great to use "Gets-It." "Gets-It," the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. M'd by E. Lawrence & Co., Chicago, Ill. Sold in Grants Pass and recommended as the world's best corn remedy by George C. Sabin.

Diamond SQUEEGEE TREAD TIRES

Demanding Every Diamond We Can Make

EVERY Diamond Tire our big factories can produce is demanded by enthusiastic motorists who have previously driven on Diamonds.

More than 2,000,000 Diamond Tires are in use—more than one for every three cars in America. Every one of these Diamonds has displaced other makes.

We feel that such popular demand is stronger proof of Diamond super-value than all the claims and guarantees we could make.

ENGLISH CAPTAIN RELATES

(Continued from Page One.)

had learned from others in the service what terrible weapons depth bombs were in the hands of skillful seamen.

"For some moments we waited; engines were stopped and all means were taken to prevent giving indication of our position. Minutes seemed like hours in such a situation. I'll admit that I was turning over in my mind whether I should see my family again. No additional explosions took place, however, and after remaining some 18 fathoms deep for a long period we continued our voyage.

"A few days later we had another experience with depth charges, or 'wasser bomben' as the German sailors call them. A sailing vessel had just been sunk by shell fire when two allied destroyers were sighted,
