Thackeray Always Late.
An external stimulus sometimes is necessary to bring a writer's ideas to a focus. It was the custom with Thackeray never to do today what could be put off until tomorrow. He was, therefore, frequently behind with his copy and it was no uncommon thing for him to keep the messenger from his publisher waiting at the door while he wrote the last pages of the book.

DESCRIBES NEW MANNER TO MAKE APPLE SYRUP

Washington, Sept. 6.—As a means for saving sugar and making many winter foods and drinks palatable, the department of agriculture has made many successful experiments with the juices of sweet fruits. Berries, peaches, pears and apples have been made into syrups that serve as spreads for bread, as flavors and sweetening for cake and as the basis for pies, puddings and various forms of "French pastries." Of these the most important from the housewives' viewpoint is apple syrup, because in a few weeks apples will be cheaper than any other fruit, the juice is easier to extract and the apple flavor is pleasing to more palates. To make apple syrup, these directions are given:

Add five ounces of powdered calcium carbonate to seven gallons of apple cider. Powdered calcium carbonate, (carbonate of lime), or to give it its common name, precipitated chalk, is low priced and harmless. Boil the mixture in a kettle or vat vigorously for five minutes. Pour the liquid into vessels, preferably glass jars or pitchers; allow to stand six or eight hours, or until perfectly clear. Pour the clear liquid into a preserving kettle. Do not allow sediment at bottom to enter. Add to the clear liquid one level teaspoonful of lime carbonate and stir thoroughly. The process is completed by boiling down rapidly to a clear liquid. Use density gauge or candy thermometer and bring the temperature up to 220 degrees Fahrenheit. If a thermometer is not available, boil until bulk is reduced to one-seventh of the original volume. To determine whether the syrup is cooked enough test as for candy—by pouring a little into cold water. If boiled enough it should have the consistency of maple syrup. It should not be cooked long enough to harden like candy when tested.

When the test shows that the syrup has been cooked enough pour it into fruit jars, pitchers, etc., and allow it to cool slowly. Slow cooling is important, as otherwise the suspended matter will not settle properly and the syrup will be cloudy.

A good way to insure slow cooling is to stand the vessels, full of syrup in a bucket or a washboiler of hot water or to place them in a fireless cooker. The white sediment which settles out during cooking is called "malate of lime" and is a harmless compound of lime with the natural acid of the apple. When the syrup is cooled it should be stored in fruit jars, bottles, or jugs and corks. Place the rubber and cap or cotton stopper or cork in position and tighten. Place the container in boiling hot water and sterilize for 15 minutes. Remove jars and tighten covers. Invert to cool, and test the joints. Store for future use.

The World's Holidays.
According to statistics drawn up by the Guaranty Trust company of New York, during the present year there are only eighty-four days on which banks are open everywhere in the world. On every one of the other 281 days some nation somewhere will be celebrating a civil or religious holiday, or observing the Sabbath. Only one of these holidays is universal. This is New Year's day, and eleven different dates are observed by various countries as the beginning of a new year. Some countries observe more than one during the calendar year. Five Christian countries do not observe Christmas as a legal holiday.

COURIER **ONE DAY ONLY**
BARGAIN **WEDNESDAY**
DAY **SEPTEMBER**
18

Notwithstanding the greatly increased cost of producing a newspaper the Daily Courier Bargain Day will be a real Bargain Day—the day when Courier subscribers save money.

Courier Bargain Day occurs on September 18, the Anniversary of the establishment of the Daily issue of the Courier. On that day, and that day only, the price for one year's subscription is reduced to

FOUR FIFTY
4th TO 8th POSTAL ZONES FIVE DOLLARS

Strictly in advance. Present subscribers may take advantage of this opportunity to save money if their subscription is paid to at least September 1; others may secure this privilege by paying all arrearages at the regular rates.

These rules are held to strictly, and no subscription will be received at the reduced rate after the 18th unless sent by letter, the postmark bearing the date of the 18th.

To accommodate those who can not rely on their own memory, we will accept checks now, but they will not be cashed nor receipts issued until the 18th, although subscriptions may start at any time.

\$6 per year **BARGAIN DAY** **Saves you \$1.50**
50c per month **Saves you 25%**

The War Industries Board now requires newspapers to stop sending papers where subscription is in arrears so if you want the paper to continue you must arrange for payment.

Last year a number were disappointed, owing to forgetfulness, and were obliged to pay the regular price. This year they will remember, but others may forget. If you forget, it costs you money.
