tive engines of war and must of ne- wealth that would result from placfront with the hones of settling into favorable fighting ground. This latter theory is advanced by some military experts. One dispatch from the front states that the Germans are settling into a great defensive position directly before the American-French advance and have merely been throwing out machine advance in this sector.

Studying the war map and noting the present dally advance of the allied forces, it is reasonable to not expect the allies to reach the German border before next summer. President Wilson has hinted that he does not expect a termination of hostillties before 1920. General Crowder to "let George do it," but are deteris pointing out the urgent need for expedition in filling out the quesdrawn for immediate service.
