WASH THE KIDNEYS!

All the blood in the body passes through the kidneys every few minutes. This is why the kidneys play such an important role in health or disease. By some mysterious process the kidney selects what ought to come out of the blood and takes it out. If the kidneys are not good-workmen and become congested—poisons accumulate and we suffer from headache, headache, lumbago, rheumatism or gout. The urine is often cloudy, full of sediment; channels often get sore and sleep is disturbed at night. So it is that Dr. Pierce, of the Invalids' Hotel and Surgical Institute in Buffalo, N. Y., advises "Washing the Kidneys," by drinking six to eight glasses of water between meals and then if you want to take a harmless medicine that will clear the channels and cure the annoying symptoms, go to your nearest drugist and obtain Anuric (double strength). This "Anuric," which is so many times more potent than lithia—will drive out the uric acid poisons and bathe the kidneys and channels in a soothing liquid. If you desire, write for free medical advice and send sample of water for free examination. Experience has taught Dr. Pierce that "Anuric" is a most powerful agent in dissolving uric acid, as hot water melts sugar. "Anuric" is a regular insurance and life-saver for all
