

### GLASSY ATTRACTIONS WILL BE AT CARNIVAL

Much time and preparation is being spent upon the Red Cross carnival, which is to be held at the courthouse the evenings of the 25th and 29th. A large crowd is expected and two evenings of merry making will result.

Sixth street will be fenced in for two blocks and the whole space given to dancing, music and a general good time. There will be one of the best vaudeville shows ever staged in Grants Pass. The side show will have surprising and unusual attractions. Real Hawaiian dancers with their native songs and musical instruments. Winnie, the Mexican dog will be on exhibition here.

Not only will the grown ups have the time of their lives, enjoying the spirit of '99' promised by Fred Williams, and the clever stunts and amusements, but there will be a special attraction for the little tots.

It is the wish of the committee that everyone turn out to make the carnival a success. It will be an evening worth while, full of fun and good times, and it will be helping one of the greatest organizations in the world.

### REPAIRING OF COURIER BUILDING NOW COMPLETE

Repair work at the Rogue River Courier office, following the fire of June 25, has been completed. The interior of the building now presents a neat appearance, while the building itself is now protected by a concrete rear wall and the courtyard is enclosed along the alley by a concrete wall. Marks of the fire are still in evidence and will be for many months. The daily issues of the Courier for some weeks will still show the scorched edges which have been noticeable for the past 10 weeks. The replacing of the seven sheets of plate glass will be deferred until after the close of the war.

There are still hundreds of pounds of type which will have to be sorted and much material to be replaced.

The construction work on the building was done by Joseph Harper and assistants, the electric work by Paul's Electric store of Medford and the painting and finishing by Chas. M. Morrison.

Gall is in the radio branch at Bremerton, while Earl is at present with the auto mechanics section somewhere in the middle western states.

### Don't Lick Stamps.

Use a dampened sponge to seal your letters and to moisten the stamps, advises the Popular Science Monthly. The glue used on stamps and envelope flaps is made of bones and hoofs of cattle, and all sorts of rags are used in the paper. Besides, although they may have been sterilized, the articles pass through many dirty hands while on their road to you.

### BRITISH TAKE 25,000 TURKS

(Continued from page 1)

General Allenby's troops have surrounded part of the Ottoman army and are collecting the disorganized masses of men and transport arriving from the south. So far 18,000 prisoners and 100 guns have been counted.

This means the virtual annihilation of the Ottoman forces in this region.

Paris, Sept. 23.—Disaster threatens the armies of Bulgaria and Turkey. In Palestine General Allenby virtually wiped out the enemy opposing him in Macedonia. The allies have driven a breach between the eastern and western flanks of the German and Bulgarian forces.

Ash Hopper. A man the other day brought back memories of olden times when, in reply to a remark that spring was coming on fast, he said: "Yes, it's about time I was building the old woman an ash hopper." How many of you kids know to what he referred?—El Dorado Springs (Mo.) News.

Put Strangers Above Relations. It was a visitor, Ibn Al-Amid, who lived in the eleventh century, who wrote this strangely modern advice: "Choose your friends among strangers, and take not your near relations into favor. Relations are like scorpions, or even more noxious."

A Splendid Effort— The city band has been badly disorganized by many of the members leaving, but the boys showed some speed Saturday evening in getting a sufficient number of the old organization together to furnish music for the parade.
