They fight with their whole souls

You are reading every day of our boys over there—of Pershing's divisions charging into the blasting fire of the Boche trenches; of small detachments smashing their way from house to house through ruined villages; of single-handed deeds of sacrifice and valor.

One thought, one impulse only fills their souls—to *fight and keep on fighting*, until the war is won.

They know that all America is back of them; they know that they can count on us at home to send them all the guns and supplies they need to win.

There is only one way we can do it. All of us must work and save and buy Liberty Bonds, with our whole souls, the way our men are fighting over there!

No less will win. There is no other way to provide the money the Government must have. No other standard can make the Fourth Liberty Loan a Success.
