Listen to the knocking at the knitting club.
The makings of the U. S. A.
Mummy Jimmie's hall of fame.
My Belgium rose.
My daddy's star.
My Uncle Sammy gals.
Private Flynn.
Russians were rushing, the Yanks started yanking.
Smiles.
Song of a mother's heart.
Some one is longing for home sweet home.
Somewhere, somewhere in France.
Tale of the fireside.
That's a mother's liberty loan.
There's an angel missing from heaven.
There's one more river we're going to cross.
Three wonderful letters from home.
Till we meet again.
We don't want the bacon, what we do want is a piece of the Rhine.

MORE MEN NEEDED FOR HEAVY ARTILLERY

Any registered and classified man can now be immediately inducted voluntarily for service overseas in heavy field artillery—big mobile guns, howitzers, railway artillery, and others of the "heavies" that are becoming more and more important. The movement overseas of these regiments is being unusually expedited by the war department and men are given a chance to volunteer for this attractive branch of the service. The coast defense of the Columbia are called upon to send heavy artillerymen with the utmost speed. No branch offers more of a variety of opportunities for advancement or more fascinating work. Men showing the proper aptitude are made non-commissioned officers with duties pertaining to some part of this interesting service. There are gun commanders, observers, master gunners, engineers, electricians, radio sergeants, and various other duties open to the man who is alert and eager. Almost any man who has the stuff in him, even though his previous training may have been along an entirely different line, may take advantage of the special instruction provided, within the company itself or in some training center.

A man may be inducted by sending a letter to the commanding officer, coast defenses of the Columbia, Ft. Stevens, Ore., giving name; order and registration number; class (number and letter); present address; number and address of local board; and whether qualified for general or limited service. Officers training camps are open for men of this service. Every effort is made to give men, after they are inducted, all the necessary preliminary training before going to the camp.
