If Germany accepts, it means just ity available. what the American people have demanded-unconditional surrender.

WHAT THE WAR IS FOR

In the midst of these peace discusbasic fact clearly in mind:

The United States went into the war to destroy German militarism. It did so because it recognized in German militarism the greatest menace to our own safety and the safety of the world, and the chief obstacle in the way of human progress.

Being in the war, we are in to win it. We shall not win until the object is attained.

To destroy German militarism we must do two things: We must destroy the German army and navy, and the mind of the German nation.

That army is only half destroyed, and still capable of great present harm and future menace if it es capes unscathed to German soil.

the Russo-Allied forces whom they captured have been borne out by evidence of witnesses and by the finding in the woods of mutilated bodies. One brutally murdered was Pirogoff, interpreter for a French detachment, according to evidence in possession of the allied intelligence office. After he had been induced

by Nor, the commander of the sec-Tot ond battalion of the 3rd Petrograd Tota

his life would be spared, he was put to slow death amid the jeers and we must destroy the military idea in mockery of the Bolsheviki soldiers.

Send to the publisher of this newspaper whatever amount of money you can-5 cents or \$50.00. We will publish a list each week of those contributing, and the amounts contributed.

Every cent received will be used to send this paper to our boys at the front. If at the end of the war, there is any surplus, it will be turned over to the local Red Cross Committee.

There is no profit in this to the publisher-even in normal times, subscriptions are root sold at a profit. With war prices prevailing, and the high rate of postage on papers sent to France, our cost will scarcely be covered by our full subscription price.
