

**How It Is Done.**  
When a woman is content to grow old gracefully, she usually does it gracefully.

GEO. S. CALBOUN,  
County Treasurer of Josephine County, Ore.

**MINIATURE TANK USED BY THE HUNS**

The latest novelty discovered in use by the Boche forces is this miniature one-man tank, used as a sniping post by the operator. The tank was captured by the Canadians during the recent offensive and one of them can be seen experimenting with it. When once behind it the operator can go forward or backward, but in rather an awkward position.

**WORTH KNOWING**

The earliest crockery designs made use of in England were obtained from the Chinese.

The number of women trades unionists in Great Britain has doubled in four years.

A room may be quickly freed from the smell of tobacco smoke by placing in it a pail of water containing a handful of hay, which will absorb all the odor of the tobacco.

**Beggar Made Good Money.**

A lucrative profession was the description applied to begging in Edinburgh, Scotland, by a magistrate the other day. A man who was brought before him on the charge of begging was found to have collected in one morning nearly two dollars in half-pennies, about two dollars and a quarter in pennies, and just a little less than three dollars in silver. He was sent to prison for 20 days.

**They Fly Faster, Too.**

Our coinage is symbolic of the change in America's attitude. On the new quarters the eagle is seen in full flight eastward, with beak and talons ready for action. On the old quarters the eagle simply stood still on its tail

England has more women government workers than any other country on the globe.

Gambling among British munition workers on Sunday has become such a nuisance that a Market Bosworth magistrate fined one \$25 for playing pitch and toss.

Wallpaper manufacturers have signed an agreement with the National Association of Machine Printers and Color Mixers. Wages have been increased and shorter hours secured.

and flapped its wings. One claw held a few antiquated weapons, the other waved an olive branch, while its beak was entangled with a scroll.—Independent.

**Rice Paper.**

Of the great army of cigarette smokers there is probably not more than one in a hundred who knows that rice paper, in which the tobacco is wrapped, has nothing to do with rice, but is made from the membranes of the bread fruit tree, or more commonly of the new trimmings of flax and hemp. So light is this paper that 500 of the tiny sheets go to make an ounce.

**Popular Symbol in China.**  
One of the most frequent groups of symbols seen in Chinese designs is the Buddhist group. The Buddhist knot is the sign of longevity, and also stands for the eight Buddhist commandments. Two fish denote domestic felicity. These fish, or perch, go in pairs and are always faithful to each other. The umbrella of 10,000 people is presented to a mandarin on his leaving a district as a token of the purity of his administration. The canopy, like the umbrella, is a sign relating to official life, which is the ambition of every Chinese.

**Goat's Milk Popular.**

Canned goat's milk is finding an increasing market all over the world, and is said to be a profitable industry. In the course of the year the goat will produce twelve times its weight in milk, while a cow will yield only three times its weight, but the goat is not so reliable as an all-year-round source of supply. Goat's milk is very rich, and is in demand as a food for invalids and many children, and the goat is said further to be free from tuberculosis.

**Minor Scales.**

There are two forms of the minor scale, viz., the melodic and harmonic. The former is sometimes called the vocal minor scale, because it is easier to sing than the harmonic. The latter has an augmented second between the sixth and seventh degree, and this is difficult to sing until one has acquired a certain degree of proficiency. The harmonic minor scale is more used in instrumental than in vocal music.

**Caterpillars' Intelligence.**

If caterpillars cannot actually think, it appears that they have a degree of sense not generally recognized. In a London institution lecture some time ago Frederick Enoch, who has been studying the insects for half a century, showed that they really seem to be conscious of their marking and coloration and are able to use the knowledge in protecting themselves from birds, their natural enemies.

**Call for Pity.**

There are people who go about the world looking out for slights; and they are necessarily miserable, for they find them at every turn, especially the imaginary ones. One has the same pity for such men as for the very poor. They are the morally illiterate. They have had no real education, for they have never learned how to live.

**Ancient Egyptians Played Ball.**

Egypt is the birthplace of the ball game. How it was played history does not record. Recent excavations made near Cairo have brought to light a number of small balls, some of leather and others of wood, dating back to at least 2,000 B. C. These are the oldest balls of this sort known.

**Needed Qualifications.**

Earnest Youth—"Father, what qualifications do you need to be a member of the Supreme court?" Father—"You have to be thoroughly respectable, honorable beyond reproach, and be able to write English in such a way that no other lawyer will be quite sure what you mean."—Life.

**Insane Pretend Insanity.**

A rather paradoxical message comes from the Paris Medical. In general, it seems, the doctor is not lightly to dismiss insanity which is obviously simulated. A pathological basis should be sought. There are cases where the patient is insane to pretend to be insane.

**Speed Machine Most Needed.**

To save labor and space in large post offices, a New Jersey man has invented a letter-sorting cabinet in which the letters are dropped into narrow slots and fall down chutes into larger compartments.

**Why Breakfast Was Bum.**

"What are you so grouchy about?" "Had a bum breakfast this morning." "I know. These pesky cooks—" "It was worse than that. Had to get it myself."—Kansas City Journal.

**Maintaining One's Rights.**

If it be a duty to respect other men's claims, so also is it a duty to maintain our own. That which is sacred in their persons is sacred in ours also.—Herbert Spencer.

**Sponges.**

The wet, flat lands of Ecuador produce a vine yielding fruit which, when dried, forms a sponge considered by some persons superior to animal sponges.

**Still They Will Happen.**

Mistakes will happen, but the difference between a good man and a poor one is that the good man is always on guard.—Detroit Free Press.
