When the green leaves turn to gold,  
When the kaiser does the goose-step,  
When the moon shines down in old  
Alaska.  
When the moon shines in Ireland,  
When there's peace on earth again,  
When the sun goes down in Dixie,  
When the sunset turns the ocean's  
blue to gold.  
When we gather wild flowers,  
When we meet in the sweet bye and  
bye.  
When we reach that old port, some-  
where in France,  
When we wind up the watch on the  
Rhine.  
When I dream about that southern  
home of mine.

**Trench-Digging Crab.**

One of the creatures most adept at mimicry is the fiddler crab. This curious creature is an expert in trench digging. He carries with him, as part of his body, an extraordinary weapon which serves as spade, sword and spoon. This is an enlargement of one claw shaped so much like a fiddle that it gives the crab its name.

**INFLUENZA TAKES 3RD GRANTS PASS VICTIM**

The third death in Grants Pass from the influenza epidemic occurred this morning when George Morris died from pneumonia following the Spanish influenza. Mr. Morris had been ill for a week or more but was supposed to have nearly recovered, but a relapse proved fatal. Mr. Morris was born in Ashton, Ill., January 20, 1874, and came to Grants Pass in October, 1889. In July 1907, he was married to Myrtila Agnes Morrison, who with 7-year-old daughter, Jesse, survive. There is also a brother, Charles V. Morris, a resident of this city.  
A private funeral will be held in Hall's chapel Saturday afternoon at 2:30, and the interment will be in the Granite Hill cemetery.

**IN APPRECIATION**

In times of great sorrow the sincere sympathy of one's friends is a source of great comfort. We desire to express our gratitude for the many manifestations of deep regard during our late bereavement.

**Labor-Saving Penholder.**

To conserve his time a man whose monthly duty it is to sign 100,000 salary checks for a railway company employs a multiple penholder that permits his signature to be written five times in one operation. The apparatus, says Popular Mechanics Magazine, differs from some others in that the fountain pens are clamped to a pivoted rack that is mounted in a portable box resembling a suitcase. The cover, when opened flat on the desk top, holds a frame in which the vouchers are placed for signing.

What He Didn't Like About Helen. Kenneth's little playmate, Helen, was to have a party. Only girls were to be invited, but Kenneth was unaware of this fact. He longed for an invitation and expected one up to the day of the party. But alas! the invitation didn't come. Downhearted, he said to his mother: "You know, mother, I like Helen awfully well, but I certainly don't like her ways."

**Road Contract Completed—**

J. Wolke, who has returned from Myrtle Creek, where he spent most of the summer on a Pacific highway contract, states that the grading has been completed from Myrtle Creek to Dillard, with the exception of a short piece on which the county failed to secure a right-of-way. The bridges, contracts for which are held by other companies, are yet to be constructed. This grading of about nine miles, eliminated the Roberts mountain road and nine railroad crossings.

**Lose \$8,000 Transformer—**

The California-Oregon Power Co. lost one of their \$8,000 transformers and also the transformer house at the Gold Ray plant Wednesday morning, the same having burned up about 3 a. m. They had been working on the transformer for some time and had it about ready to put into service again with the exception of drying out the oil. This was being accomplished with the aid of an electric forge which was under the transformer boiling the oil. The parts of the transformer that were not being heated were hanging from a crane in the transformer house and were covered with canvas and evidently the fumes from the boiling oil were ignited by a short circuit some place in the building, causing the building to catch fire and completely burn up together with the transformer parts.—Medford Tribune.

**Driver Has Close Call—**

The Jackson County Creamery is working one truck short today due to having one of their large Maxwell trucks smashed up by a south-bound Southern Pacific freight train at the Third street crossing this morning at about 8:20 o'clock, says the Medford Tribune. Lyle Pickel who was driving the truck east on Third street did not see the approaching train from the north in time to stop and the train hit his truck well past the center and turned it completely around and hit it again in front throwing it clear of the track and breaking down one of the S. P. trespass signs as well as marring the side of a telegraph pole. Pickel stayed with his machine and rode it through, coming out uninjured but pretty badly shaken up and scared. The machine is practically a total wreck.

**"Commonwealth and Coffee."**

The introduction of coffee into England dates from the period of the Cromwellian Protectorate; according to a Restoration pamphleteer, "Coffee and Commonwealth came in together." Jacobs, a Jew, opened a coffee house at Oxford in 1650, and two years later the first one was established in London by Pasqua Rosee, the Armenian servant of a city merchant.

**No Crime to Stifle Yawn.**

The office boy says he has no record of any law having been enacted making it a crime to stifle a yawn. You may have in mind the case of Macbeth, who, as you will recall, created a sensation in the newspapers of his time by murdering sleep.—Indianapolis Star.

**Latin Derivative.**

Corporal is derived from the same Latin word as captain, but with an admix- of the meaning and spelling of the English word corps. Caporalis in medieval Latin meant a chief or com- hence the French caporal.

**Cold-Water Cure.**

If our eyes are in good order we may keep them so by opening them under cold water every morning when we wash, but cold water is for strong eyes; weak ones should use it tepid, with a little boracic powder dissolved therein. Keep your boracic solution ready mixed in a bottle, then you won't have to make it up every day.

**Here are the Wirthmor war time service Blouses**

WE term them "war time service Blouses" for that in fact is what they are. They answer the need of service just as they answer the need of economy. They enable thrifty women the Nation over to heed the Government's injunction to save, and at the same time be prettily and attractively Bloused.

There is no "fripperies" about the Wirthmor, no gaudy, tawdry, overtrimmed styles, but rather the neat, the dainty, the modest in design, the character of styles that are always popular, but now more so than ever before. Add to this style desirability real service giving quality and you have the matchless value the word *Wirthmor* stands for.

LOT J1—Of fine Voile. Front tucked and collar trimmed with pretty Venise Lace, which extends down entire front. Turn back cuffs.

LOT J3—Large tuxedo collar and cuffs of fine madras; body of Voile of superior quality. Groups of tiny crosswise tucks prettily trim front.

LOT J2—Semi-tailored model. Front daintily embroidered. Convertible collar. A neat simple effective model.

LOT J4—Of fancy barred Madras, a slightly and serviceable model. Convertible collar and all seams double stitched. Vest collar and turn back cuffs are of Voile.

The price of these Wirthmor Waists is still \$1.00. Only a limited number are still to be had at this low price. On December 1st, when the makers present material stocks are exhausted the price will inevitably be advanced to \$1.50. This is essential to maintain the high standard that the Wirthmor always has and always will represent.
